Re: Case No. 21-4-EL-BGN- In the Matter of the Application Tymochtee Solar, LLC for a Certificate of Environmental Compatibility and Public Need to Construct a Solar-Powered Electric Generation Facility in Wyandot County, Ohio.

Proof of Publication and Service of Procedural Schedule and Accepted, Complete Application

Dear Ms. Troupe:

In accordance with Ohio Administrative Code Rule 4906-3-09(A)(1), Tymochtee Solar, LLC ("Applicant") published and served notice of the application and the procedural schedule for this matter. Attached please find a copy of the proof of the publication attesting that notice of the accepted, complete application was published in *The Daily Chief – Union*, a newspaper of general circulation in Wyandot County, Ohio on August 21, 2021. In addition, in accordance with Ohio Administrative Code Rule 4906-3-09(A)(1), written notice was also served on August 19, 2021.

We are available, at your convenience, to answer any questions you may have.

Respectfully submitted,

/s/ Christine M.T. Pirik

Notice of Proposed Major Utility Facility

Tymochtee Solar, LLC (Tymochtee Solar), an indirectly owned subsidiary of Apex Clean Energy Holdings, LLC, is proposing to construct a solar-powered electric generation facility of up to 120 megawatts located in Tymochtee and Sycamore Townships, Wyandot County, Ohio. The facility will be sited on approximately 800 acres. The general purpose of the Facility is to maximize energy production from solar resources in order to deliver clean, renewable electricity to the Ohio bulk power transmission system to serve the needs of electric utilities and their customers.

Tymochtee Solar filed its application with the Ohio Power Siting Board (OPSB) for a certificate to construct, operate, and maintain the proposed facility in OPSB Case No. 21-4-EL-BGN. A copy of the application is available on the OPSB website at <http://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0004-EL-BGN> and Tymochtee Solar's website at: <https://www.tymochteesolar.com>. The application is currently pending.

On August 17, 2021, the OPSB established the procedural schedule in this case. The public will be given an opportunity to comment on the proposed facility. The public hearing in Tymochtee Solar's OPSB case shall consist of two parts and will be conducted in person:

- (1) A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written and oral testimony from members of the public who are not parties to the case on October 26, 2021, in a session beginning at 6:00 p.m., Wyandot County Fair, Master's Building, 10171 OH-53, Upper Sandusky, Ohio 433510.
- (2) An evidentiary hearing to commence on November 16, 2021, at 10:00 a.m., 11th floor, Hearing Room C, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215- 3793. The purpose of the evidentiary hearing is for Tymochtee Solar, Staff, and intervenors to provide evidence regarding the Project.

Consistent with CDC Guidelines and the May 17, 2021 Ohio Department of Health Order, unless otherwise specified by the facility, individuals who are not fully vaccinated should continue to wear a face covering and socially distance. Please contact the legal department at 614-466-6843 to ask any questions or request accommodations related to health protocols.

Public comments can be provided in writing on the OPSB's website at <https://opbs.ohio.gov/wps/portal/gov/opbs/help-center/contact-us>, by electronic mail to contactOPBS@puc.state.oh.us, or by mail to the OPSB 180 E. Broad St., Columbus, OH 43215. Written comments should reference Case No. 21-4-EL-BGN.

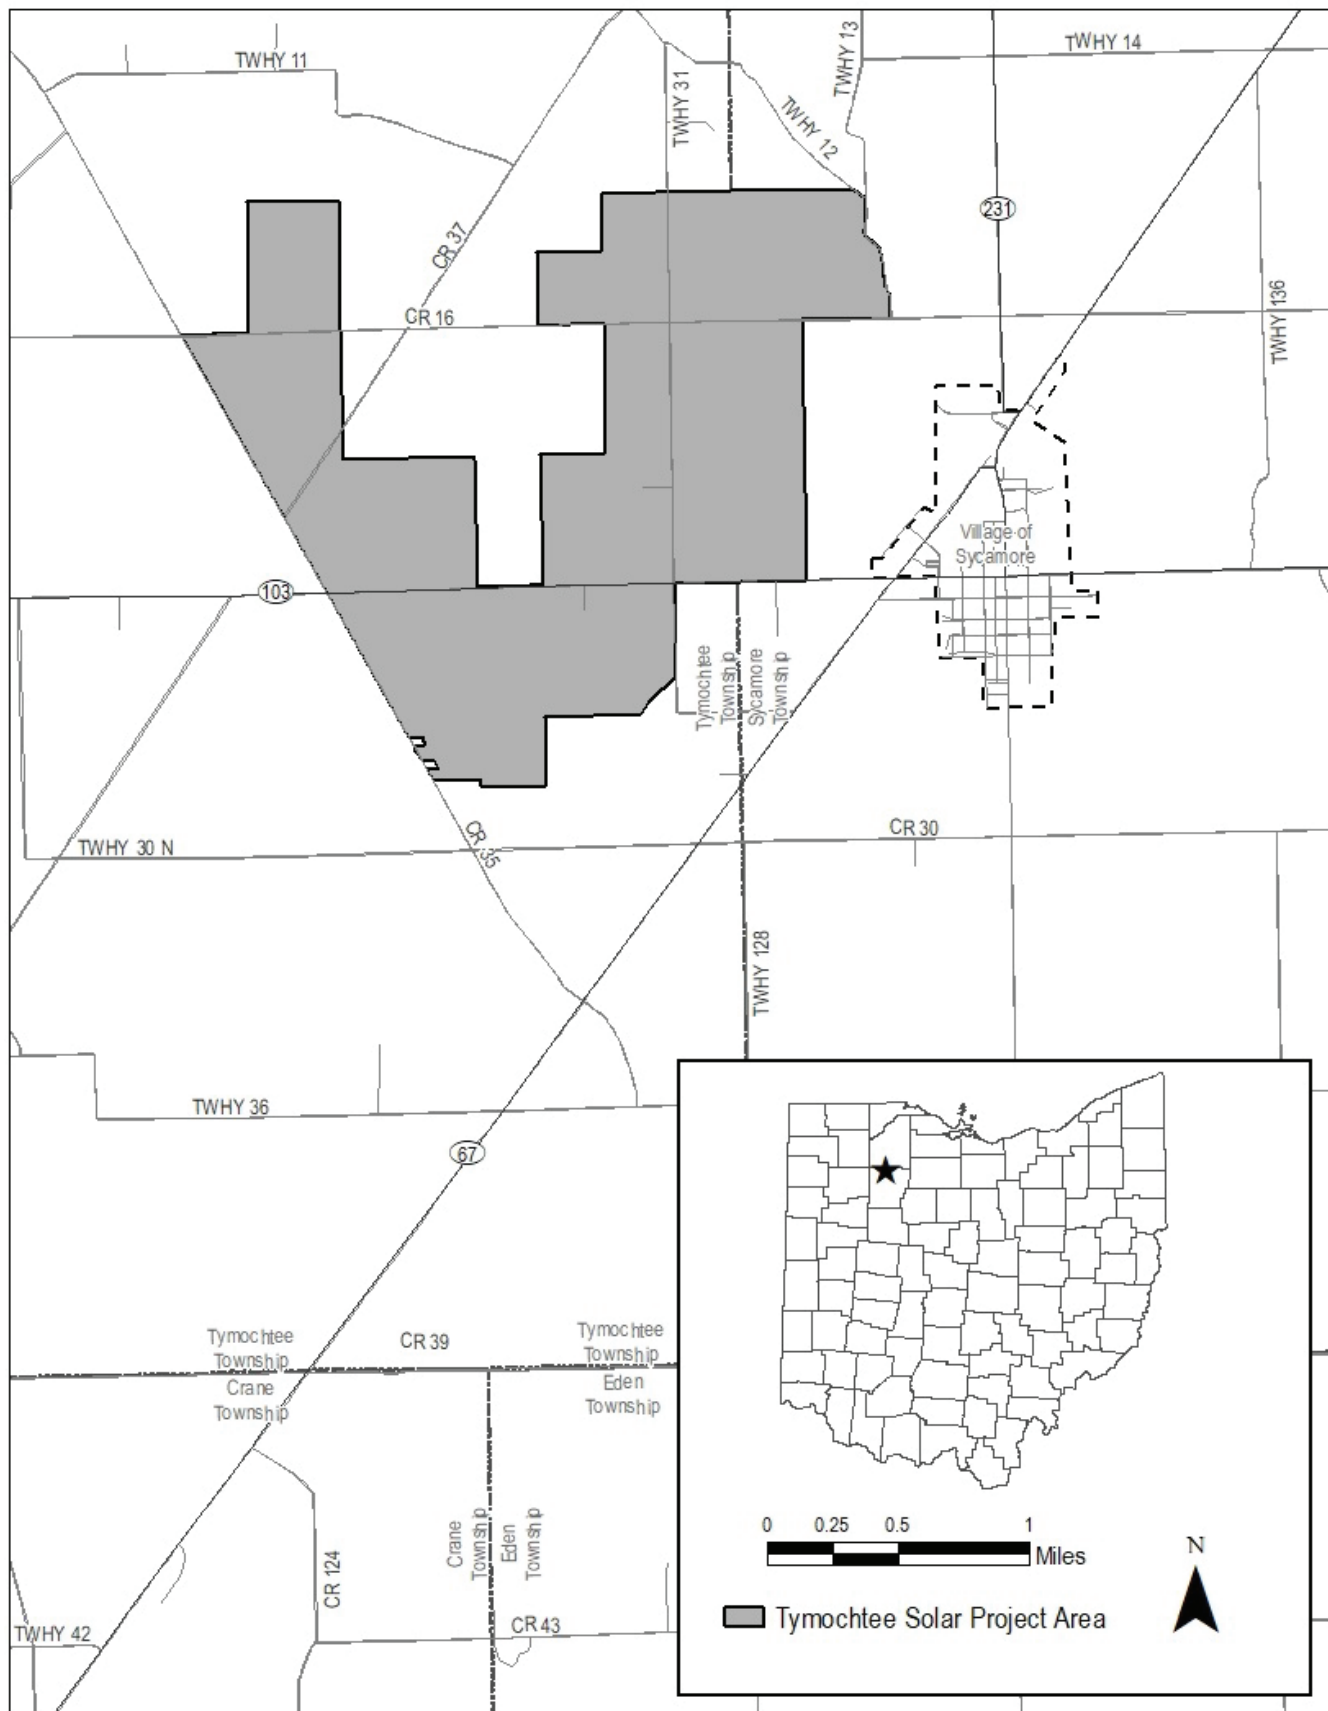

The following officials have received electronic copies of the accepted complete application filed with the OPSB: Wyandot County Commissioners; Wyandot County Engineer; Tymochtee Township Trustees; Sycamore Township Trustees; Sycamore Township Fiscal Officer; Wyandot County EMS; and, the Sycamore Volunteer Fire Department. In addition, an electronic copy of the application, as well as a notice to post regarding the application, was sent to: Mohawk Community Library, 200 S Sycamore Ave, Sycamore, OH 44882. A copy of the application is also available for inspection at the OPSB offices, 180 E. Broad St., 11th floor, Columbus, OH 43215, 1-866-270-6772, and is available on the OPSB website at <http://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0004-EL-BGN> and Tymochtee Solar's website at: <https://www.tymochteesolar.com/>.

In reviewing an application to construct, operate, and maintain a generation facility, such as the facility proposed by Tymochtee Solar, the OPSB considers the following criteria set forth in Ohio Revised Code (R.C.) 4906.10(A): (1) The nature of the probable environmental impact; (2) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations; (3) That the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability; (4) That the facility will comply with R.C. 3704, 3734, and 6111 and all rules and standards adopted under those chapters and under R.C. 1501.33, 1501.34, and 4561.32; (5) That the facility will serve the public interest, convenience, and necessity; (6) What the facility's impact will be on the viability as agricultural land of any land in an existing agricultural district established under R.C. 929 that is located within the site and alternative site of the proposed major utility facility; and (7) That the facility incorporates maximum feasible water conservation practices as determined by the OPSB, considering available technology and the nature and economics of the various alternatives.

R.C. 4906.07(C) provides that the chairperson of the OPSB shall cause each application filed with the OPSB to be investigated and shall, not less than 15 days prior to the date any application is set for hearing submit a written report to the OPSB and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to R.C. 4906.10(A) and shall become part of the record and served upon all parties to the proceeding.

In accordance with R.C. 4906.08(C), the OPSB shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the OPSB may adopt rules to exclude repetitive, immaterial, or irrelevant testimony. Petitions to intervene in the adjudicatory hearing will be accepted by the OPSB up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Administrative Code 4906-3-09, or September 24, 2021, whichever is later. However, the OPSB strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 E. Broad St., Columbus, OH 43215- 3793 and cite Case No. 21-4-EL-BGN.

The following map shows the proposed layout of the Tymochtee Solar facility. An online version of the map and a link to additional detailed maps can be found here: <https://www.tymochteesolar.com/>
