B-3. Disclosure of liabilities and investigations

For the applicant, affiliate, predecessor of the applicant, or any principal officer of the applicant, describe all existing, pending or past rulings, judgments, findings, contingent liabilities, revocation of authority, regulatory investigations, judicial actions, or other formal or informal notices of violations, or any other matter related to competitive services in Ohio or equivalent services in another jurisdiction..

Liability and Investigations Disclosures: In 2017 in Maine, Think Energy was instructed to stop marketing in a utility service area that was not included in Think Energy's original license application. For clarification purposes, there are two utilities with Bangor in the name; Think Energy was only licensed in one of the Bangor utilities. The error was due to incorrect zip codes in Think Energy's systems which was rectified within one day of the Commission's notice to Think Energy.

In Ohio in 2017, a staff member instructed Think Energy to cease natural gas marketing. The Commission's instruction was lifted, and Think Energy resumed natural gas marketing services in Ohio.

As stated in Think Energy's 2019 license renewal package, in Ohio in 2018, Think Energy was required by PUCO to cease door-to-door marketing as a result of a regulation misinterpretation. Think Energy mistakenly understood that the PUCO rules specifically addressing door-to-door sales completely covered all consent requirements. Think Energy did not interpret the regulations to include the general rules for mailing, facsimiles and direct enrollments to be in addition to the door-to-door rules. Due to this misunderstanding, Think Energy believed that its' obtaining third party verifications for all door-to-door sales was sufficient. Think Energy acknowledged its good faith mistake and corrected the mistake to be in compliance with the regulation, and the matters raised by staff were fully addressed to the satisfaction of PUCO.
