Re: Emerson Creek Project: Erie & Huron Counties, OH

Dear Mr. O'Brien:

In response to your request on June 25, 2021, the National Telecommunications and Information Administration provided to the federal agencies represented in the Interdepartment Radio Advisory Committee (IRAC) the plans for the Emerson Creek Wind Project, located in Erie and Huron Counties, Ohio.

After a 45+ day period of evaluation, no *reviewing* agencies had issues with turbine placement in this area.

While the IRAC agencies did not identify any concerns regarding radio frequency blockage, this does not eliminate the need for the wind energy facilities to meet any other requirements specified by law related to these agencies. For example, this review by the IRAC does not eliminate any need that may exist to coordinate with the Federal Aviation Administration concerning flight obstruction.

Thank you for the opportunity to review these proposals.

Sincerely,

JOHN  
MCFALL  
John R. McFall
