To Whom It May Concern,

We are long time residents of Allen County, Shawnee Township. Our concern over the past several months has been that fertile land is just randomly being taken for wind/solar development with very little concern that Ohio is supposed to be a pollinator state... and that cannot happen if the once fertile land is being destroyed. We believe that vacant industrial property or vacant land not already being used for agricultural purposes should be used for wind/solar development.

Sincerely,

Ralph and Lisa Joseph
