**RE: Amendment #2 to the Glencoe-Speidel 138 kV Transmission Line Project
Case No. 21-0805-EL-BTA**

Dear Neighbor,

You are receiving this letter because you own property or live in the area that's part of AEP Ohio's Glencoe-Speidel 138 kV Transmission Line Project. This project involves building approximately 13 miles of 138-kilovolt (kV) power line through Warren, Goshen and Smith townships in Belmont County.

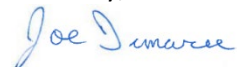

AEP Ohio representatives filed the enclosed amendment with the Ohio Power Siting Board (OPSB) on August 19, 2021, that includes minor changes to an application we previously submitted for the project on June 13, 2018. Since we submitted that application, the following events have taken place leading up to the recently filed amendment:

- The OPSB certified the application as complete on August 13, 2018 based on the requirements outlined in the Ohio Administrative Code (OAC) 4906-3-06 (A)(1)
- The OPSB approved the application on February 21, 2019 under Case No. 18-0279-EL-BTX
- The OPSB issued the certificate for the construction, operation and maintenance of the transmission facilities along the preferred power line route on February 21, 2019
- AEP Ohio representatives proposed adjustments to the approved power line route on September 20, 2019
- AEP Ohio representatives proposed additional adjustments to the approved power line route on August 19, 2021

Replacing steel towers from the 1940s with modern steel poles provide a more reliable power source and reduces the occurrence of outages in the area.

For additional details about the OPSB and this project, please visit <http://www.opsb.ohio.gov>. To view an electronic version of the application, search Case No. 21-0805-EL-BTA. You can visit AEPOhio.com/Glencoe-Speidel and follow the directions to obtain an electronic or hard copy.
