⁵ Due to the FCC's multiplier rules, the full amount of Novacap Saturn Holdings, L.P.'s equity and voting interest is technically attributable to this entity. For the sake of clarity in conveying ownership and control, however, the table herein reflects Novacap TMT V, L.P.'s actual interest.

⁶ The address of PVM Co-Investments I, L.P. is 767 Fifth Avenue, 14th Floor, New York, NY 10153.

Applicants hereby certify, pursuant to 47 C.F.R. §§ 1.2001-1.2003, that to the best of their knowledge, information, and belief, no party to this Application is subject to denial of federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 583.

63.04(a)(6) Description of the transaction

Please see Section II, above.

63.04(a)(7) Description of the geographic areas in which the transferor and transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area

Transferor:

Stratus offers competitive long distance, VoIP, private line, data and/or Internet services in approximately 35 states. Stratus does not provide facilities-based telecommunications services in the areas of Ohio, West Virginia, Pennsylvania, or Indiana where Transferee affiliates Horizon

Telecom, Inc. (“Horizon”) and The Chillicothe Telephone Company (“CTC”) operate. Stratus also does not provide any telecommunications services in CTC’s ILEC exchanges in Ohio.

Transferee:

Transferee does not offer any domestic telecommunications services.

Transferee is an Affiliate, as defined in Section 3(1) of the Communications Act of 1934¹⁰ (“the Act”), with Horizon. Horizon’s wholly owned subsidiary, CTC, is a rural incumbent local exchange carrier authorized and certificated by the Public Utilities Commission of Ohio to provide local exchange telecommunications services and exchange access within ten local exchanges (the Chillicothe, Massieville, Frankfort, Londonderry, Bainbridge, Kingston, Bourneville, Hallsville, Richmondale and Clarksburg exchanges) that serve portions of the central Ohio counties of Ross, Pike, Pickaway, Jackson, Hocking, and Vinton. CTC provides interstate exchange access and resells domestic interstate long distance toll services within this central Ohio local exchange service area pursuant to a blanket Section 214 authorization from the Commission. It also provides custom calling services, Internet access services and video services to customers within this central Ohio service area.

CTC also has constructed, owns and operates an advanced fiber optic network that offers telecommunications and information services to businesses, institutions and wireless tower sites throughout southern and eastern Ohio and northwestern West Virginia. This fiber network consists of approximately 4,300 route miles, serves portions of 36 Ohio and West Virginia counties, and encompasses areas connecting the cities of Columbus, Cincinnati, Pittsburgh and

¹⁰ 47 U.S.C. §153(2).

Youngstown. CTC also leases some fiber optic facilities from third parties, and uses these facilities to extend its services into nearby areas of Pennsylvania, Michigan and Indiana.

63.04(a)(8) Statement as to how the application fits into one or more of the presumptive streamlined categories in Section 63.03 of the Commission's Rules or why it is otherwise appropriate for streamlined treatment

This Application satisfies the criteria set forth in Section 63.03(b)(2)(ii) and (iii) for presumptive streamlined processing. Specifically, this Application is eligible for streamlined processing pursuant to Section 63.03(b)(2)(ii) because immediately following the transaction (i) Transferee (and its Affiliates, as defined in the Act) will have a market share in the interstate, interexchange market of less than ten percent (10%). With respect to Section 63.03(b)(2)(ii), Transferor does not provide any facilities-based telecommunications services within the service area of Transferee Affiliates Horizon and CTC, and does not provide any telecommunications services in CTC's ILEC exchanges in Ohio. Thus, the presumptive streamlining of the instant Application is proper under Section 63.03(b)(2)(ii) of the Commission's Rules.

With respect to Section 63.03(b)(2)(iii), CTC provides access lines in portions of five (5) counties in central Ohio, which is fewer than two (2) percent of the nation's subscriber lines installed in the aggregate nationwide, and the transaction will result in no new overlapping or adjacent service areas with another incumbent local exchange carrier.

Accordingly, this Application for the transfer of control of Transferor's domestic Section 214 authorization should be processed on a streamlined basis.

63.04(a)(9) Identification of all other Commission applications related to the same transaction.

None

63.04(a)(10) Statement of whether the applicants are requesting special consideration because either party to the transaction is facing imminent business failure.

Neither party to the Transaction is facing imminent business failure. Therefore, Applicants are not requesting special consideration for this reason.

63.04(a)(11) Identification of any separately filed waiver requests being sought in conjunction with the transaction.

No separately filed waiver requests are being sought in conjunction with the Transaction.

63.04(a)(12) Statement showing how grant of the application will serve the public interest, convenience and necessity, including any additional information that may be necessary to show the effect of the proposed transaction on competition in domestic markets

Applicants submit that the proposed Transaction is consistent with the public interest. The proposed ownership structure and investment participation will enable the continued provision of high-quality communications services to the Transferor's customers. Consummation of the proposed Transaction should enhance the ability of the Transferor to innovate and provide advanced network services to its customers, which will in turn advance the telecommunications and information infrastructure of the states in which the Transferor operates and those states' economic health.

Moreover, the Transaction will be conducted in a manner that will be transparent to the Transferor's customers. The Transaction will not result in any immediate change of carrier for customers or any assignment of authorizations, and in no event will it result in the discontinuance, reduction, loss, or impairment of service to customers. Following consummation of the Transaction, the Transferor will continue to provide high-quality communications services to their customers without interruption and without immediate change in rates, terms or conditions.
