Re: Case No: 20-1605-EL-BGN

RECEIVED POWER LING DIV

2021 NOV 22 PM 12:37

PUCO

Dear Power Siting Board:

I write to you today in support of Birch Solar. I live and work in the project area and I look forward to working on an energy project that will have a significant impact on our community and economy.

**The Birch Solar project will create significant new revenue that will stay local and bring \$2.7 million of additional dollars each year to schools and other community services.** Lightsource bp has committed to a \$500,000 Community Fund to help support local needs.

**Most important to me and my family are the 400 direct jobs along with an additional 400 indirect jobs, during 12+ month construction, with a minimum of 80% local labor.**

Birch Solar represents approximately \$337 million in private capital injected into the economy. There will be a \$4.6 million per year contribution to the economy in ongoing operations to maintain the facility and the land, most of which will be spent in the region.

Lightsource bp listened to the community and enhanced setbacks, added hundreds of additional evergreens, and provided adjacent landowners with financial benefits.

Lightsource bp has been a true community partner and Birch Solar will add significant value to our community for years to come.

Thank you for your consideration,

Name: *Greg Stoner*

Address: *6255 Greely Chapel Rd.  
Cridersville, OH 45806*
