RE: Letter of Notification  
West Licking County Area Improvements  
Project Component: Innovation 138kV Station Project  
Case No. 21-1083-EL-BLN

Dear Neighbor,

You are receiving this letter because public records indicate you own property or live near a proposed transmission line project. I'm writing to provide an update on the West Licking County Area Improvements.

Company representatives announced the project in July. Plans involve building about 2 miles of power line and an electrical substation to serve a customer's electric demand in eastern New Albany and Jersey Township, Licking County. The new facilities also provide additional electric service reliability to existing area customers.

We have filed the proposed Innovation Substation with the Ohio Power Siting Board (OPSB) as the Innovation 138kV Station Project, Public Utilities Commission of Ohio Case No. 21-1083-EL-BLN. Innovation Station consists of constructing a new 9-acre substation in the southwest corner of the Jug Street and Clover Valley Road intersection. Construction begins in April and continues through spring 2023.

**Please see Page 3 of this document for key regulatory information associated with this project.**
