Staff Findings and Recommendations

I. Statutory Background

Amended Substitute Senate Bill 221, of the 127th General Assembly (2008 Ohio Laws S221, effective July 31, 2008), established Ohio’s renewable portfolio standard (RPS) applicable to electric distribution utilities and electric service companies. The RPS is addressed principally in Ohio Revised Code (R.C.) 4928.64, with relevant resource definitions also contained within R.C. 4928.01(A).

According to R.C. 4928.64(B)(2), the compliance obligations for **2019** and **2020** are as follows:

RPS Compliance Year	Total Renewables	Solar Requirement	“Non-Solar” Requirement ¹
2019	5.50%	0.22%	5.28%
2020	5.50%	0.00%	5.50%

The Public Utilities Commission of Ohio (PUCO or Commission) further developed rules to implement the Ohio RPS, contained within Ohio Administrative Code (Ohio Adm.Code) 4901:1-40.

Ohio Adm.Code 4901:1-40-05(A), states:

¹ Staff uses “non-solar” in this context to refer to the total renewable requirement net of the specific solar carve-out. Staff acknowledges that there is not a specific “non-solar” requirement in the applicable statute.

Unless otherwise ordered by the commission, each electric utility and electric services company shall file by April fifteenth of each year, on such forms as may be published by the commission, an annual renewable energy portfolio status report analyzing all activities undertaken in the previous calendar year to demonstrate how the applicable renewable energy portfolio benchmarks have been met. Staff shall conduct annual compliance reviews with regard to the benchmarks under the renewable energy portfolio standard.

Ohio Adm.Code 4901:1-40-05(C), states:

Staff shall review each electric utility's or electric services company's renewable energy portfolio status report and any timely filed comments, and file its findings and recommendations and any proposed modifications thereto.

The findings and recommendations in this document pertain to the company's compliance status. This document does not address such matters as cost recovery or status relative to the statutory 3% cost provision.

II. Company Filings Summarized

2019 Compliance Year

Grid Power Direct, LLC (GPD or Company) filed its RPS compliance status report for the 2019 compliance year on April 15, 2020. In its compliance filing, GPD proposed a baseline of 3,601 megawatt-hours (MWHs) which it indicated was its Ohio retail electric sales for 2019. Applying the statutory benchmarks to its proposed baseline, GPD calculated its 2019 compliance obligations to be as follows:

- 8 Solar MWHs
- 190 Non-Solar MWHs

The Company indicated that it had obtained the necessary renewable energy credits (RECs) and solar RECs (S-RECs) to satisfy its 2019 compliance obligations. The Company further indicated that it had transferred RECs and S-RECs to its PJM EIS Generation Attribute Tracking System (GATS) reserve subaccount for Ohio compliance purposes.

2020 Compliance Year

GPD filed its RPS compliance status report for the 2020 compliance year on April 15, 2021. In its compliance filing, GPD proposed a baseline of 3,601 MWHs which it indicated was the average of its Ohio retail electric sales for the three preceding years.² Applying the statutory benchmark to its proposed baseline, GPD calculated its 2020 compliance obligation to be 198 renewable MWHs.

The Company indicated that it had obtained the necessary RECs and/or S-RECs to satisfy its 2020 compliance obligations. The Company further indicated that it had transferred RECs and/or S-RECs to its GATS reserve subaccount for Ohio

III. Filed Comments

No persons filed comments in these proceedings.

IV. Staff Findings

Following its review of the Company's annual status reports, other relevant compliance materials, and any timely comments submitted in these proceedings, Staff makes the following findings:

- (1) GPD was an electric services company in Ohio with retail electric sales in the state of Ohio during 2019 and 2020, and therefore the Company had an RPS obligation for 2019 and 2020.³
- (2) The 2019 baseline proposed by the Company is reasonable, and given the proposed baseline and the 2019 statutory benchmarks, GPD accurately calculated its 2019 RPS compliance obligations.
- (3) The Company has transferred 8 S-RECs and 190 RECs to its GATS reserve subaccount for 2019 Ohio compliance purposes.
- (4) The 2020 baseline proposed by the Company is reasonable, and given the proposed baseline and the 2020 statutory benchmark, GPD accurately calculated its 2020 RPS compliance obligation.

² The Company reported zero Ohio retail electric sales for 2017 and 2018.

³ GPD was certified to provide power marketer services in Ohio during 2019 and 2020; see PUCO Case No. 19-0397-EL-CRS.

- (5) The Company has transferred 198 RECs and/or S-RECs to its GATS reserve subaccount for 2020 Ohio compliance purposes.
- (6) Following a review of the Company's reserve subaccount data on GATS, Staff confirmed that the Company satisfied its renewable obligations for 2019 and 2020. The S-RECs and/or RECs that the Company transferred to its GATS reserve subaccount were sourced from generating facilities certified by the Commission and were of appropriate vintages.

V. Staff Recommendations

Following its review of the information submitted in these proceedings and other relevant data, Staff recommends that GPD is found to have satisfied its 2019 and 2020 RPS compliance obligations. Staff further recommends that these annual compliance status reports be automatically approved consistent with Ohio Adm.Code 4901:1-40-05(D).
