Please Do NOT approve this project. It's not in my backyard but it's just down the road. It is wrong to build a massive industrial solar field near so many people. Are you kidding me that they would even try to do this? It will destroy the quality of life of so many people in the township. This is farmland that has better use than setting solar panels on it. I believe the health of residents near the proposed project will be in danger. Put solar panels in brown spaces and in states where the sun actually shines. Money and greed is behind this project. Please do what's right and deny this project. It's wrong in so many ways.
