Re: **Clinton 345kV Expansion Project**
Ohio Power Siting Board Case No. 21-0679-EL-BLN
Notification of NPDES Authorization

Dear Chairman French,

The Dayton Power and Light Company (“DP&L”) doing business as AES Ohio hereby submits this notice to inform you of the agency approval to satisfy Condition 2 related to the November 24, 2021 Ohio Power Siting Board (“OPSB”) approval of the above referenced project. On January 18, 2022, Ohio Environmental Protection Agency (“OEPA”) determined that the above referenced project meets the criteria for authorization under National Pollutant Discharge Elimination System (“NPDES”) for a Construction Site Stormwater General Permit OHC000005 (Enclosure).

Additional permits to satisfy Condition 2 are forthcoming, and AES Ohio will submit those permits once obtained.

Please feel free to contact me if you have any questions regarding this notification letter.

Respectfully submitted,

ss:/ *Randall V. Griffin*

Re: Approval Under Ohio EPA National Pollutant Discharge Elimination System (NPDES) - Construction Site Stormwater General Permit - OHC000005

Dear Applicant,

Your NPDES Notice of Intent (NOI) application is approved for the following facility/site. Please use your Ohio EPA Facility Permit Number in all future correspondence.

Facility Name:	Clinton Substation
Facility Location:	State Route 68 and East Dalton Rd
City:	Wilmington
County:	Clinton
Township:	Union
Ohio EPA Facility Permit Number:	1GC08463*AG
Permit Effective Date:	Jan 18, 2022

Please read and review the permit carefully. The permit contains requirements and prohibitions with which you must comply. Coverage under this permit will remain in effect until a renewal of the permit is issued by the Ohio EPA.

If more than one operator (defined in the permit) will be engaged at the site, each operator shall seek coverage under the general permit. Additional operator(s) shall submit a Co-Permittee NOI to be covered under this permit. There is no fee associated with the Co-Permittee NOI form.

Please be aware that this letter only authorizes discharges in accordance with the above referenced NPDES CGP. The placement to fill into regulated waters of the state may require a 401 Water Quality Certification and/or Isolated Wetlands Permit from Ohio EPA. Also, a Permit-To-Install (PTI) is required for the construction of sanitary or industrial wastewater collection, conveyance, storage, treatment, or disposal facility; unless a specific exemption by rule exists. Failure to obtain the required permits in advance is a violation of Ohio Revised Code 6111 and potentially subjects you to enforcement and civil penalties.

To view your electronic submissions and permits please Logon in to the Ohio EPA's eBusiness Center at <http://ebiz.epa.ohio.gov>.

If you need assistance or have questions please call (614) 644-2001 and ask for Construction Site Stormwater General Permit support or visit our website at <http://www.epa.ohio.gov>.

Sincerely,

Laurie A. Stevenson
Director
