Columbus, OH 43215-3793

PRE-APPLICATION NOTIFICATION LETTER
Delta-Wauseon 138 kV Transmission Line
Tap to Nova Tube Steel Substation
Case No. 22-0053-EL-BLN

Dear Ms. Troupe:

In accordance with Ohio Administrative Code (“OAC”) Rule 4906-6-03(A) and OAC Chapter 4906-6 generally, this letter will serve as the pre-application notification letter of applicant American Transmission Systems, Incorporated (“ATSI”), a FirstEnergy company, for the above-referenced Project. ATSI expects to file a Letter of Notification application shortly.

ATSI is requesting approval to construct a new 0.66-mile-long tap from the Delta-Wauseon 138 kV Transmission Line to serve a new substation, owned by ATSI’s customer, Nova Tube Steel, and currently under construction. This proposed transmission line tap—located in the City of Delta, York Township, Fulton County, Ohio—will thus extend from the Delta-Wauseon 138 kV Transmission Line to the Nova Tube Steel Substation (“Project”).

If approved, construction for this Project is expected to begin as early as March 10, 2022, and to be completed by the end of June 2022.

Please be advised that, pursuant to OAC Rule 4906-6-04, ATSI is requesting a 28-day expedited review of this Project in order to meet the terms of ATSI’s service agreement with Nova Tube Steel.

Sincerely,

Scott M. Humphrys
Transmission Siting Supervisor
Energy Delivery Transmission and Substation Design
FirstEnergy Service Company
