Gary – I have been assigned to review the A, B and D exhibits of this application here at the Public Utilities Commission of Ohio. Someone else may contact you with questions or comments about your C exhibits. During review I have noted some issues that need to be addressed in order to bring this application into compliance with Ohio laws.

1. The first issue is A-1. The application has Power Marketer selected. The company has previously been certified as a Power Broker.
2. Provide more information for D-1.

Please correct these items and file the updated information along with a cover letter stating that you are making a revision in **Case No. 14-0238-EL-AGG** by **Friday, February 18, 2022**. You do not need to submit the entire application again, only those sections that are being revised. If you filed the application in the PUCO Community, you may also submit the amendment through that system. Again, keep in mind that you may receive a separate request for information from the staff member reviewing your financial exhibits and that person may give you a different deadline for those requirements. If you have any questions, please feel free to contact me.
