---

Dear Ohio Power Sitting Board

We are against case # 21-1231-EL-BGN

Here are just a few reasons

We do not want more flooding

We do not want the electromagnetic waves from the panels

Eyesore

We do not want toxic pollutants into our water and land

We have been on this same lot for 45 plus years, now my kids and grandkids are growing up here,  
We enjoy our nice country farmland, trees scenery, we enjoy the birds the wildlife

We have heard this will bring revenue in, we feel more revenue lost than what is said to be brought  
in

Please look at this on whole and who and what will really be affected by this project coming into  
these small communities

Thank you  
Kim Kerns
