Subject: Re: Heartbroken for the people

My apologies, this is in reference to case number 20-0417-EL-BGN. Ginna also pointed out the fact that they are still signing agreements and leases under the company name Northwest Ohio Wind Phase II, LLC. That's why we haven't found anything filed though any agency as Grover Hill Wind, LLC. But public records show a lot of stuff going on under Northwest Ohio Wind Phase II, LLC.

Today I took a break from petitioning in town and decided to get out in the country for a bit of a change. As I went to each home I had started out by stating that the petition is opposing the purposed windmill project. Most people are signing, then there was some that was confused. They said that they couldn't sign because they signed an agreement with the windmill company. They said they never wanted the windmills and they even told that to a Mr. Brad Norton. Then they told me the only reason they signed it is because Mr. Norton told them that the project was already approved and referred to the areas where they dug for the bases and said see, construction has already begun. There is nothing you can do about it now. So you can sign this agreement and get paid for living near them or you can pass on the money and still live near them. Families are heartbroken now because they found out how badly they were deceived. Idk what to tell these poor people. What do I do with this?
