This pertains to

21 - 0960 - EL - BGN

Please do not allow this industrial solar project to be built it will ruin the farm land for ever it will harm wild life especially the fauna that needs a lot of room to survive by destroying their routes it will cost local jobs the project will only create temporary jobs God only knows where the workers will come from or what kind of people they are and how high will the crime rate rise if any of you would go down to the yellow bud fiasco you would see for your self how they destroy the land roads and what they built right next to some ones yard and the de evaluation of property and create an unfriendly environment to live buy or sell or live
