Dear Ohio Power Sitting Board

I just recently learned my home is directly affected by the proposed Fountain Point Large Scale Solar Facility (Case Number 21-1231-EL-BGN). If this facility is approved I will have solar panel arrays in front of our property.

This is the list of reasons I oppose the facility:

Toxic runoff from damaged photocells.

Loss of wildlife and habitat (Deer, Bald Eagle, Bats, Coyote)

Noise from the Inverters

Degradation and loss of fertile agricultural land.

Flooding/drainage issues

Loss of property value

Heat Islands

Increased electric bills (not a single watt from the facility will go to Logan County Electric Coop)

Terribly inefficient with Ohio. (land area required for solar to replace just one of Ohio's 17 fossil fuel power plants would encompass 173 sq. miles)

For all of these reasons, I oppose this project.
