Subject: Petition against the Grover Hill Wind Project

Dear Matthew Butler,

Ginna and I have spent alot of time going around our community not just in an effort to stop what we feel is wrong for our community, but also to see how our community feels as well. We unfortunately was not able to catch everyone at home because of conflicting work schedules, but we got to alot of homes. Most were in support of our cause. Alot didn't know about a windmill project coming to our town, few didn't know enough about windmills to have an opinion, a handful supported the windmills because they didn't want conflict with their jobs, and a couple supported them because an organization they work for receives money for them. To be clear, we did not go to the homes of the people who we know have a lease agreement with GHW. The people I am speaking of do not include people who are being directly paid by GHW. With that said. We have 153 signatures by adults living within the project zone, which includes 2 that have land within the project zone, and 6 that were either across the street.or within a quarter mile from the project zone. According to the latest statistic of year 2020 Census there is a total of 261 adults in Grover Hill. We have surpassed the 50% mark in people we were able to reach out to. We would appreciate it if the OPSB would consider this petition when making a decision on whether or not to approve the GHW project.

Sincerely,

Chase Dunderman & Ginna Hinchcliff
