THE OHIO POWER SITING BOARD**

In the Matter of the Application of)	
Kingwood Solar I LLC for a Certificate)	Case No. 21-0117-EL-BGN
of Environmental Compatibility and)	
Public Need)	

PROOF OF NOTICE OF PUBLIC INFORMATIONAL MEETING

Pursuant to Rules 4906-3-03(B)(1) and 4906-3-03(B)(2) of the Ohio Administrative Code, Kingwood Solar I LLC hereby certifies that the two notices regarding the March 30, 2021 public informational meeting attached hereto as Exhibit A were sent to the addresses listed in Exhibit B on March 9, 2021 and March 17, 2021 via first class mail. In addition, notice was published in the Xenia Gazette and the Fairborn Daily Herald, newspapers in general circulation in the project area, on March 20, 2021. The published notices and affidavits of publication are attached hereto as Exhibit C.

Respectfully submitted,

RE: Kingwood Solar Public Information Meeting

Dear 

I hope this letter finds you healthy and safe in these uncertain times. I am the Project Manager for the Kingwood Solar Project, and am writing to invite you to participate in the Kingwood Solar Public Information Meeting. Given the issues associated with the current pandemic, we unfortunately cannot have an in-person meeting. For your convenience, we are providing two different meeting options—one virtual and one dial-in.

About the Project

The Kingwood Solar Project is an up to 175-megawatt (MW) solar energy project proposed south of Clifton Road and west of Ohio Route 72 in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. Kingwood Solar I LLC ("Kingwood Solar") is the developer of the Kingwood Solar Project and is a subsidiary of Vesper Energy. Vesper Energy has successfully developed renewable energy projects throughout North America and we look forward to presenting this project to you and other community stakeholders.

Public Information Meeting Details

We will hold two meetings for the Kingwood Solar Project on March 30, 2021. An online Zoom meeting at 6:00 PM EDT, followed by a phone-based meeting at 8:00 PM EDT. The details for registering and joining either of those meetings are provided below.

Zoom Virtual Conference

March 30, 2020 — 6:00pm-7:00pm EDT

Please go to www.kingwoodsolar.com and click the link to register in advance for this meeting. After registering, you will receive an email containing information about joining the meeting. If you prefer not to register, we will also provide a separate link on our website to view the meeting via a live-stream option.

Dial-in Phone Conference

March 30, 2020 — 8:00pm-9:00pm EDT

Call (937) 972-0230 or (800) 309-2350. Enter Conference ID: 440-0294.

The Public Information Meeting (both the online and phone-based formats) will include:

- A presentation about solar energy, Vesper Energy, the Kingwood Solar Project, and the Ohio Power Siting Board permitting process;
- Speakers from Vesper Energy and outside consultants; and,
- An opportunity for attendees to submit questions to a moderator, which will be answered by the presenters.

A copy of the presentation that will be used in both meetings is included in this letter. Additionally, the Zoom presentation will be recorded. So if you are unable to join at the time of the

meeting, you will be able to go to www.kingwoodsolar.com and watch the entire event at your convenience. Please email any project-specific questions you may have to info@kingwoodsolar.com. For assistance using Zoom, please visit the support webpage at <https://support.zoom.us>.

Ohio Power Siting Board Process

Under Ohio Law, electric generating facilities capable of producing 50 MW or more must apply for a Certificate of Environmental Compatibility and Public Need from the Ohio Power Siting Board (OPSB). The OPSB provides for a single unified process by which facilities can obtain a certificate to operate. Generally speaking, the OPSB process includes a public information meeting, submittal of certificate application, 60-day staff completeness review, application acceptance, OPSB staff review and recommendation, public hearing, adjudicatory hearing, and certificate issuance or denial. There are various avenues for public participation throughout the permitting process. This includes commenting on the docket, attending public hearings, and more.

Additional Information

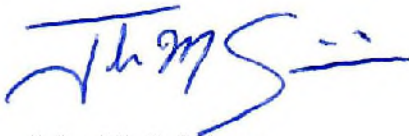

You are also welcome to contact the OPSB directly for more information:

Ohio Power Siting Board
180 E Broad St
Columbus, OH 43215
Phone: (866) 270-6772
opsb.ohio.gov
contactopsb@puco.ohio.gov

You can also follow the online case docket at <https://opsb.ohio.gov/wps/portal/gov/opsb/cases/21-0117-el-bgn>, or subscribe to OPSB meeting notices at <https://public.govdelivery.com/accounts/OHPUC/subscriber/new>.

Kingwood Solar is committed to be a good neighbor and active supporter of the local community, and expects to contribute more than \$1,500,000.00 every year to the local tax base. I look forward to working with you moving forward. Should you have any additional questions or wish to speak to a member of our staff, please contact us at info@kingwoodsolar.com or at 937-907-0970.

Sincerely,

March 17, 2021

RE: Kingwood Solar Public Information Meeting

Dear [REDACTED]

I am writing to follow up on my letter from last week, which contained information about the Kingwood Solar Public Information Meeting. As a reminder, the date for the Public Information Meeting is March 30, 2021 and it will consist of both a Zoom virtual conference and a dial-in phone conference (details below). Please note that our letter sent to you last week incorrectly referenced the year of 2020 instead of 2021 under the headings for the Zoom and dial-in phone conference, which has been corrected below.

Kingwood Solar Public Information Meeting Details

We will hold two meetings for the Kingwood Solar Project on March 30, 2021. An online Zoom meeting at 6:00 PM EDT, followed by a phone-based meeting at 8:00 PM EDT. The details for registering and joining either of those meetings are provided below.

Zoom Virtual Conference

March 30, 2021 — 6:00pm-7:00pm EDT

Please go to www.kingwoodsolar.com and click the link to register in advance for this meeting. After registering, you will receive an email containing information about joining the meeting. If you prefer not to register, we will also provide a separate link on our website to view the meeting via a live-stream option.

Dial-in Phone Conference

March 30, 2021 — 8:00pm-9:00pm EDT

Call (937) 972-0230 or (800) 309-2350. Enter Conference ID: 440-0294.

The presentation materials for both meetings were included in last week's mailing. Should you have any additional questions about when these meetings will occur or how to participate in either meeting, or if you wish to speak to a member of our staff, please contact us at info@kingwoodsolar.com or at 937-907-0970.

Sincerely,

A handwritten signature in blue ink, appearing to read "John M. Soininen".

Notice of Public Information Meeting for Proposed Major Utility Facility

Kingwood Solar I LLC ("Kingwood Solar"), a subsidiary of Vesper Energy, has scheduled a Public Information Meeting for March 30, 2021 to outline plans for the Kingwood Solar Project (the "Project"). The proposed Project location is in Cedarville, Miami, and Xenia Townships, Greene County, Ohio (see map below). The Project will use photovoltaic panels and have a total project generating capacity of up to 175 megawatts. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. Kingwood Solar anticipates filing its application with the Ohio Power Siting Board in April 2021. Construction is estimated to begin in 2022, with commercial operations in 2023.

Due to the ongoing public health crisis, this public information meeting will be held virtually, via Zoom, on March 30, 2021, beginning at 6:00 pm EDT. An alternative phone-based meeting option is also available. A link to participate in the online session or alternatively view the session without registration is or will be available via the Project website at <https://www.kingwoodsolar.com>. A video recording of the presentation will be posted to the website following the meeting. Questions can be submitted in writing live during the meeting and can also be submitted following the meeting.

If you do not have access to the internet or would prefer to participate by phone, and would like to learn more about the Project, an alternative call-in meeting will be held on March 30, 2021 at 8:00 PM EDT. At the time of the phone-based meeting, please call (937) 972-0230 or (800) 309-2350 and enter Conference ID 440-0294.

If you have questions, would like to obtain paper copies of presentation materials, comment via mail, or speak one-on-one with a Project representative, please contact Kingwood Solar at 937-907-0970 or info@kingwoodsolar.com.

In the Matter of the Application of)	
Kingwood Solar I LLC for a Certificate)	Case No. 21-0117-EL-BGN
of Environmental Compatibility and)	
Public Need)	

PROOF OF NOTICE OF IN-PERSON INFORMATIONAL MEETING

Kingwood Solar I LLC (“Kingwood Solar”) will hold an in-person public informational meeting between 6:00 and 8:00 pm EDT on June 29, 2021 in the Dining Hall of the Greene County Expo Center. This in-person meeting has been scheduled to fulfill the commitment Kingwood Solar made in its March 24, 2021 correspondence to the Ohio Power Siting Board (the “Board”), wherein Kingwood Solar committed to holding an in-person informational meeting within 30 days after the lifting of all pandemic-related restrictions on mass gatherings.

This in-person public information meeting provides an additional opportunity for Kingwood Solar to present its project to the community, to answer questions about the project, and to hear feedback and concerns from area stakeholders. The June 29, 2021 in-person meeting supplements Kingwood Solar’s prior engagements with the community, including: two voluntary public information sessions on October 26, 2020 and November 19, 2020; two virtual public informational meetings on March 30, 2021 to satisfy the pre-application meeting requirements outlined Ohio Adm.Code 4906-3-03(B), in a manner, approved in this proceeding on March 26, 2021, to comply with the state’s pandemic-related restrictions on mass gatherings;¹ and participation in an in-person forum organized by the Greene County Commissioners on April 6, 2021.

¹ Landowner mailings for these virtual meetings included hard copies of the presentation materials, including a map of the project area. The link to the virtual presentation is accessible from the Kingwood Solar website.

Information about the June 29, 2021 in-person informational meeting attached hereto as Exhibit A was sent to the addresses listed in Exhibit B on June 8, 2021 via first class mail which consists of participating property landowners and adjacent landowners/tenants. Notice for the June 29, 2021 public information meeting was published in the Xenia Gazette and the Fairborn Daily Herald, newspapers in general circulation in the project area, on June 19, 2021. Additional notice was also published in the Yellow Springs News on June 24, 2021. The published notices and affidavits of publication are attached hereto as Exhibit C.

Respectfully submitted,

ADDRESS

RE: Kingwood Solar In-Person Informational Meeting

Dear SALUTATION,

Due to pandemic restrictions, the Kingwood Solar Project was unable to host a traditional in-person public information meeting prior to submitting its application to the Ohio Power Siting Board. Instead, we held both a virtual meeting and telephonic meeting on March 30th.

Effective June 2, 2021, the Director of the Ohio Department of Health rescinded various orders, including pandemic-related restrictions on gatherings. Therefore, we can now hold that in-person meeting and are pleased to share those details with you.

Kingwood Solar In-Person Informational Meeting Details

We will hold an in-person meeting for the Kingwood Solar Project on June 29, 2021. The details for that meeting are provided below.

In-Person Informational Meeting
Tuesday June 29, 2021 --- 6:00pm-8:00pm EDT
Greene County Expo Center
Dining Hall
120 Fairground Road
Xenia, OH 45385

We look forward to continuing to share additional details about Kingwood Solar with you. If you have not had a chance to review our application, which was filed with the Ohio Power Siting Board in April, it is available by searching for case number 21-0117-EL-BGN on <http://dis.puc.state.oh.us/>.

Should you have any additional questions about this meeting, or if you wish to speak to a member of our staff, please contact us at info@kingwoodsolar.com or at 937-907-0970.

Sincerely,

Dylan Stickney
Development Manager

Notice of Public Information Meeting for Proposed Major Utility Facility

Kingwood Solar I LLC ("Kingwood Solar"), a subsidiary of Vesper Energy, has scheduled an in-person public information meeting for June 29, 2021 to outline plans for the Kingwood Solar Project (the "Project"). The proposed Project location is in Cedarville, Miami, and Xenia Townships, Greene County, Ohio (see map below). The Project will use photovoltaic panels and have a total project generating capacity of up to 175 megawatts. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. Kingwood Solar filed its application with the Ohio Power Siting Board on April 16, 2021. Construction is estimated to begin in 2022, with commercial operations in 2023.

This in-person public information meeting will be held between 6 and 8 p.m. EDT on Tuesday June 29, 2021 in the Dining Hall at the Greene County Expo Center located at 120 Fairground Road, Xenia, OH 45385.

If you have questions, please contact Kingwood Solar at 937-907-0970 or info@kingwoodsolar.com.

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar I LLC ("Kingwood Solar"), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the "Project"), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing pursuant to R.C. 4906.07 and 4906.08(C), where the Board shall accept written or oral testimony from any person; and
2. An adjudicatory hearing. To participate in the adjudicatory hearing, intervention in the case is necessary.

Additional information about the public hearing and adjudicatory hearing, including the date, time, and location for the hearings, will be provided when available. Petitions to intervene should be addressed to the Ohio Power Siting Board, Docketing Division, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

YSDC

CONTINUED FROM THE FRONT PAGE

conference call, nine addressed the group, though Laura Curran, a member of Village Council, wrote in the chat that she appreciated the YSDC's work and was glad to be in attendance.

• Alex Scott, interim director of the Yellow Springs Chamber of Commerce, who serves as an ex-officio YSDC member, announced that she will be leaving the Chamber effective July 16 to take the position of outreach manager with Home, Inc. The position is currently held by Kinetia Sanford, who has accepted a teaching position at Mills Lawn School. Scott noted that she will continue to connect with YSDC, as part of her new role will include leading Home Inc.'s Inclusive & Resilient coalition.

• Members unanimously approved giving a hardship deferral to the Chamber of Commerce on paying its 2021 YSDC dues. The dues amount is \$500 per representative. Voting members in attendance, in addition to Krueger, were Clifton Mayor Alex Bieri; Shelly Blackman, representing the community; Yellow Springs school board President Steve Conn; Don Hollister and Corrie Van Aalsdal, the Miami Township representatives; Hannah Montgomery, of Antioch College; and Lisa Abel, representing the Community Foundation. Abel, who was out of town, called into the Zoom meeting by phone.

• Board members also voted to accept a proposal from Lisa Abel to hire an architect on retainer in an attempt to avoid some of the issues that came up during the firehouse sale. Abel said she had spoken with a representative of Earl Reeder Associates, who agreed to the proposal. Costs would include a \$500 retainer fee plus \$175 per hour of work. The board agreed to the fee, with hourly engagement not to exceed \$1,000.

• YSDC members also unanimously agreed to give \$1,000 to the McKee Group toward its effort to finance a new Cost of Living Survey of the Village, to be completed by Wright State University, based on the

latest Census data. Total cost of the effort is \$15,000, according to information shared with YSDC.

• Yellow Springs Schools Superintendent Terri Holden, an ex-officio YSDC member, addressed the group about the district's recent efforts regarding local school facilities and her hope that the YSDC will support its plan to construct a K-12 school on the site of the middle/high school campus on East Enon Road.

Holden said that throughout the master planning process, there has been "a lot of misinformation" passed along in the community, and she believes the YSDC can play a role in promoting "accurate information."

YSDC involvement is appropriate because, "The story of the schools and the story of the village is the same story," Holden said.

"I want to stress collaboration," she added, going on to list a handful of ways the district has worked with the village in the past two years on a range of initiatives, including: the sale of property to the Village for the construction of a bike path connecting East Zeele Road to the Agraria farm; participation in the Village's one-way transportation trial on Walnut Street in front of Mills Lawn School; involvement in the Safe Routes to Schools project; publicly supporting the planned Oberer development on the south side of town; supporting "in name and funding" the expansion of Wi-Fi access in the village.

"I say that to tell you that we are interested in collaborating," she said. "Help us educate the community" about the importance of a new school.

Asked to add his thoughts, Steve Conn, school board president, said that when the 2020 strategic plan was developed in 2010, "the facilities were already identified" as an issue. "We've been talking about them for over a decade. We've studied these buildings extensively. The [school] board's goal is to try to figure out the best solution for our kids, which dovetails into the best solution for our village."

YSDC members responded favorably to the district's request for support, including discussion about compiling demographic

and tax information and comparisons as well as engaging in community outreach. Jeanmarie Cox, an ex-officio member from the Community Foundation, suggested that the Foundation may have funding available.

Corrie Van Aalsdal agreed that YSDC's support of the school district's plans is appropriate as an economic development organization.

"I believe the school district is one of the largest employers in town," she said. It's appropriate to ask "What is the larger economic impact of the schools on the village?" she said. "I really look at public schools as an equity issue. I'm disheartened by the negativity [I hear] to progress. I feel downhearted."

Van Aalsdal, Cox and Abel agreed to form a sub-committee to work with the district in supporting its K-12 plan.

• The group's next meeting is scheduled for Tuesday, July 13, at 4:30 p.m., via Zoom. YSDC leadership is checking to confirm that the group may continue meeting online since it is not a governmental entity subject to the state's Sunshine laws.

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar LLC ("Kingwood Solar"), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the "Project"), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5kV (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.psc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing pursuant to R.C. 4906.07 and 4906.08(C), where the Board shall accept written or oral testimony from any person; and
2. An adjudicatory hearing. To participate in the adjudicatory hearing, intervention in the case is necessary.

Additional information about the public hearing and adjudicatory hearing, including the date, time, and location for the hearings, will be provided when available. Petitions to intervene should be addressed to the Ohio Power Siting Board, Docketing Division, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Miami Township Trustees— In-person meetings return

By Carol Simmons

Fifteen months after the pandemic lockdown began, and with a transition to conducting Miami Township business through online video conference calls, the Township Trustees returned to in-person meetings Monday, June 21.

The meeting was also the three-person board's first in the Township's new fire station, which includes the trustees' office, since the building's completion last fall.

The gathering was small, with Trustee Mark Crockett, who is currently in residence at Friends Care Community, and fire Chief Colin Altman, who was on vacation, both absent. Present were Trustees Chris Mucher and Chair Don Hollister, Fiscal Officer Margaret Silliman and the head of roads and cemeteries, Dan Gochoenauer.

Attending from the community were Marilan Moir, who has announced her intention to run for a trustee's seat in the fall election, and Jennifer Adams, a member of the Citizens for Greene Acres grassroots group that opposes construction of a proposed 1,500-acre solar array that crosses Miami, Cedarville and Xenia townships.

Mucher reported having received a complaint from a township resident that the Trustees were not offering a "hybrid" way to attend their meetings, with the resident saying that the absence of an online option "discriminates against the elderly."

Business at the June 21 meeting included:

• Mucher reported that the Township and the Yellow Springs Development Corporation, or YSDC, had settled their disagreement over who should pay for utilities and other fees incurred in the three months between announcing the sale of the former firehouse to comedian Dave Chappelle's holding company and the final closing of that sale. The YSDC conducted the sale on behalf of the Township, having purchased the option to sell for \$1. The original agreement included an 8% commission for the YSDC.

"We're going to get a check for \$380,000 from the sale of the firehouse," Mucher reported, without giving any other details. The News has reported that the sale price was \$424,000. In a June 14 email to the Trustees, Stephen Haller of the Greene County Prosecutor's Office, which serves as the Township's counsel, summarized the newly reached agreement with YSDC as a distribution of the sale's net proceeds of \$413,593.50, with YSDC to receive \$33,593.50.

• Mucher also reported that the placement of the deduct meter in the new firehouse was not allowing it to correctly measure the water discharge in the vehicle bay, resulting in higher water bills.

"Long story short, we're going to have to put a new deduct meter in at a cost of \$5,950," Mucher said.

• Fiscal Officer Silliman reported that payroll was going to come up short without a transfer of money from the general fund. She requested that the Trustees approve a transfer of \$7,000 to make that week's payroll, and an additional \$32,000 to make up the shortfall for the following four two-week pay periods.

She explained that payroll funds come from two revenue streams: one-third is covered by a fire department operations levy and two-thirds come from insurance reimbursements for ambulance runs.

"Insurance reimbursements go up and down," Silliman said, adding that not all ambulance runs result in an insurance

claim, as patients without insurance aren't charged.

• Hollister announced that the Miami Township Board of Zoning Appeals was scheduled to have a hearing Wednesday, June 23, to review Zoning Inspector Richard Zopf's ruling against certain activities occurring and/or planned at the Agraria farm property on Dayton-Yellow Springs Road, which is zoned for agriculture. Agraria leaders believe that a range of activities are allowable through the state's agritourism rules. Zopf believes some do not qualify as agritourism.

Hollister said interested parties could "google Greene County agritourism," concerning a court ruling about a property in Caesarocreek Twp., to see how Zopf made his determination.

About 75 people attended the Wednesday night hearing, packing into the meeting room at the new firehouse, but the meeting was continued until Wednesday, June 30, when a stenographer, hired by Agraria to take notes in preparation of a possible court action, did not show up.

• Reporting about other agencies on which trustees serve, Mucher announced that the Miami Valley Regional Planning Commission and the Greene County Regional Planning Commission have each had recent "personal" discussions. The MVRPC has extended the contract of its executive director, who recently earned a national award for his work, while the GCRPC promoted its assistant director to interim director with the resignation of the former director, who had been commuting from his home in Chicago. The GCRPC is currently seeking a new assistant director, Mucher said.

Mucher also said that the trustee's might consider whether to continue its representation on the Yellow Springs Senior Center board, Crockett, who is the Township designee, has not been able to participate.

• The trustees voted in favor of building a new utility shed and a new columbarium, for holding funeral urns, at Glen Forest Cemetery. Total cost for the two structures is \$32,400.

• The trustees responded positively to a request for financial support in the construction of a proposed Yellow Springs-Clifton bike path connector, authorizing a new donation of \$5,000. The township gave an initial \$5,000 in 2018.

• The Trustees also agreed to contribute \$500 to the local Odd Fellows, who requested a donation to support the July 4 fireworks display, which they traditionally present. Hollister, who noted that he is a member of the Odd Fellows, but didn't have his membership in the township in regards to July 4, said the total cost for the display is about \$8,000. Mucher said the Township has typically donated \$500 in the past. The event was canceled last year amid the pandemic.

The Trustees' next meeting is scheduled for Wednesday, July 7, at the new firehouse.

«ADDRESS»

RE: Kingwood Solar Project Application for a Certificate of Environmental Compatibility and Public Need – Notice of Proposed Major Utility Facility

Dear «SALUTATION»,

We are contacting you to provide you with additional information about the Kingwood Solar Project (the “Project”). We look forward to additional conversations about the Project, both at the public hearing on November 15, 2021 and at other future events. This letter contains additional information about the Project, the Ohio Power Siting Board process, and upcoming public hearings on the Project.

About the Project

Kingwood Solar I LLC (“Kingwood Solar”), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Project, an up to 175 megawatt solar-powered electric generation facility to be located in Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar's Application to the Ohio Power Siting Board

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, Greene County Regional Planning and Coordinating Commission, Greene County Department of Development, and Greene County Community Improvement Corporation. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record, including PDFs of the application can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

Ohio Power Siting Board Criteria

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Notification of Public Hearings

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Intervention

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Should you have any additional questions about this meeting, or if you wish to speak to a member of our staff, please contact us at info@kingwoodsolar.com or at 937-907-0970.

Sincerely,

A handwritten signature in black ink, appearing to read 'D Stickney', with a stylized flourish at the end.

Dylan Stickney
Development Manager

Re: Kingwood Solar Project Application for a Certificate of Environmental
Compatibility and Public Need – Notice of Proposed Major Utility Facility

Dear «SALUTATION»:

Pursuant to Ohio Adm.Code 4906-3-09, Kingwood Solar I LLC is providing you with a notice regarding the proposed facility. Also, for your information, a copy of the public notice of the application and hearings was printed in the Xenia Daily Gazette and Fairborn Daily Herald on September 9, 2021 and in the Yellow Springs News on September 10, 2021.

Please do not hesitate to call me at 614-464-5462 with any questions.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Mike Settineri".

Michael J. Settineri

MJS/sl

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar I LLC (“Kingwood Solar”), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the “Project”), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township

Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar I LLC ("Kingwood Solar"), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the "Project"), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings. Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm. Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

OBITUARIES

http://www.ysnews.com

Esther Baldwin

Esther Breedlove Baldwin, born Aug. 14, 1923, in Indianapolis, Ind., passed peacefully on Sept. 2, 2021, at the grand age of 98.

She is survived by her daughters and son, Betsy Baldwin Whitney, of Dayton, Ohio; Robert F. Baldwin, of Yellow Springs; Nancy Niersheimer, of Sidney, Ohio; and Linda Niersheimer Wilken, of Celina, Ohio. She was most proud of her 20 grandchildren, numerous great-grandchildren and 10 glorious nieces and nephews.

Esther was preceded in death by her parents, John L. Breedlove and Goldie Elizabeth Moore Breedlove; her four siblings, first husband, Paul Howard Niersheimer, and second husband, Robert F. Baldwin Sr.; daughter, Joy Baldwin Schweizer; sons-in-law, Edward Schweizer and Lee Whitney; daughters-in-law, Carrie Baldwin; one niece, Joan Breedlove Wilder; and one grandson, Robert Schweizer.

Esther was the last of her family generation, and being the baby of her family, she was known for her vim and vigor. She led her nieces and nephews down the pathway of life, sometimes fun and sometimes just moral support. She adored her grandchildren.

Esther was a 50-year member of Eastern Star, joining Acacia Chapter in 1965. Esther enjoyed music and played organ for her Indianapolis Church from high school until she was first married. Her love of music continued as she lived at Ohio Living Dorothy Love Retirement Community, where she sang with all who came to visit — mostly

hymns, but music of the 1940s as well.

Esther had a long career in Dayton as a regional Welcome Wagon Lady, then as an insurance agent, and finally as an executive secretary for the Baldwin and Whitney Insurance Agency. She will be missed by many.

Services were held on Saturday, Sept. 4, 2021, at First Presbyterian Church of Yellow Springs, Ohio, 314 Xenia Ave., Yellow Springs, with Pastor Darla Schaffnit officiating. She was laid to rest at Glen Forest Cemetery. Arrangements in care of Jackson Lytle & Lewis Funeral Home. Condolences may be expressed to her family by visiting www.jacksonlytle.com.

Misu Crocker

On Friday, Aug. 27, 2021, Misu Wumish Crocker, of Athens, Ohio, left this plane at the age of 25, after an instant fatal car crash. He is survived by his mother, Marta Mari, of Rovinj, Croatia, and her partner, Douglas M. Bailey; father, Billy Ray Crocker Jr., of Cleveland, Ohio; sister, Madison Melody Crocker, and her partner, along with their son, Bear Dean Crocker; brother, Dharma Mani-Pi Crocker; dear friend, Loren Chavez; and grandmother, Maryann Crocker Stone, and her husband.

Celebration of life services will be held Saturday, Sept. 11, beginning at 8 p.m., in the chapel at the Ohio Renaissance Festival, and on Sunday, Sept. 12, 2-5 p.m., at The Grange in Amesville, Ohio. A third celebration of life will be held in Yellow Springs on a date to be determined.

Arrangements entrusted to Graulich Funeral Home. For updates on the Yellow Springs service, and to leave condolences on a tribute page, visit graulichfuneralhome.com.

Springs service, and to leave condolences on a tribute page, visit graulichfuneralhome.com.

Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.psc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704, 3734, and 6111, of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A) (1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929, of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) (7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm. Code 4906.3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Mildred McConville

Mildred McConville passed away peacefully on Aug. 30, 2021, at the age of 96.

Born April 20, 1925, in the small railroad town of Manly, Iowa, she was one of five children born to Anna and Henry Bachman. Mildred married John McConville in 1954 and they moved to Yellow Springs in 1958 for John's position as a researcher at Antioch College.

She was a longtime member of First Presbyterian Church of Yellow Springs, serving as a deacon and Sunday school teacher. Mildred was on the board of the Children's Center and worked as a volunteer bookkeeper for both the Senior Center and Children's Center. She also volunteered at Glen Helen, the Chamber of Commerce and Dayton Art Institute. She enjoyed tennis, bridge, travel and birdwatching.

In 1972, Mildred co-founded the Anthropology Research Project in Yellow Springs with her husband, and served as its accountant for many years.

Mildred is survived by her daughters, Jean McConville Payne (Sieve), Kay Reimers and Lynn McConville (Leland Mayne). Her grandchildren are Shayna McConville,

Lauren Payne (Corvey), Eric McConville (Nicki), John Reimers, Eric Reimers, Peter Mayne and Eleanor Mayne; and great-grandchildren are Adrienne and Theodore McConville, Oren Johnson and Milla Johnson.

The family designates the Glen Helen Raptor Center for any donations in memory of Mom and our Dad, John McConville.

Barbara Davis

Barbara Altamese Oliver Davis, age 92, made her transition to heaven on Sunday, Aug. 22, 2021, at her home. She was surrounded by family who never left her side after she suffered a stroke on Aug. 12, 2021.

Barbara was born to Jesse D. and Amanda Burr Oliver in Jacksonville, Fla., on Feb. 24, 1929. At a very young age she moved to Albany, Ga., to live with her great-grandmother, Nancy Sims, and great-aunt and uncle, Agnes and Thomas Hunt.

Barbara's education started in Albany, Ga., at Eastern Elementary School at the tender age of 4, where she remained from grades one through eight. She graduated from Madison High School in Albany at the age of 16. Barbara had always aspired to become a registered nurse, but because of her young age, she could not start nursing school until she reached the age of 17. After one year attending Albany State College, Barbara was accepted to the Grady Hospital School of Nursing in Atlanta, Ga. She graduated in 1949 and began her nursing career on the "colored" wards at Phoebe Putney Memorial Hospital in Albany. She spent weekends going to dances with her friends, and eventually met her future husband and married in May 1948.

Much happened in the next 10 years for Barbara, including several moves, the births of three daughters and the onset of the Civil Rights Movement. In the early 1970s, after years of dedicating her life to raising her daughters, she returned to nursing by restarting her career at Charles Drew Health Center in Dayton, Ohio. In 1976, Barbara accepted an instructor position at the then-Greene Joint Vocational School for the first diversified health occupations class, benchmarking a program that is still in existence and in high demand. While working full time and raising her three daughters as a single parent, Barbara continued her education, earning her Bachelor of Science degree in education from Central State University and graduating cum laude in 1978. In the following years, Barbara went on to take graduate level courses and in 1984, she was inducted into Wright State University's Chapter of Phi Delta Kappa.

After 22 years of service, Barbara retired in 1988, living life on her own terms. Barbara enjoyed knitting, calligraphy, traveling, visiting with her grandchildren, collecting recipes and playing Solitaire on the computer. Barbara was also a "Star Trek" fan and had a video cassette collection of every TV show and movie in the franchise. In addition, she was a history buff who also enjoyed reading the tabloids and grocery store romance novels.

Barbara was raised in the Southern Baptist Church. Her Christian education began at Mount Calvary Baptist Church in Albany where, she recounted, she spent more days in church than not while growing up. For close to 50 years, Barbara was a faithful member of Central Chapel A.M.E. Church in Yellow Springs.

During that time, she served in numer-

ous positions: as steward pot tom, senior chair president, chairperson in Christian education, superintendent for Sunday school, usher and member of the Youth Meditation Council. Barbara was not only a member of the Lay Organization, but held various posts and offices for the Connectional Lay Economic Development Corporation, or CLEDC. She was a hard worker when it came to spearheading fundraisers, particularly the Mongolian BBQs often held by the church. Barbara also volunteered her materials and time for making dresses and pants for children in Haiti. She will be fondly remembered for the seafood gumbo dinners she hosted in her home.

Barbara was preceded in death by her brother, Grover Phillips; and sister, Mary Challenger. She leaves to cherish her memory another sister, Theresa Russaw, of Denver, Colo.; three daughters, Anita L. Davis, of Dayton, Lillian S. McCree (Yunthony), of Beavercreek, and Karen D. Robinson (Tracey), of Elgin, S.C.; grandchildren, Corrie Mize, LaToya Grinstead, Symone Lewis, Shyrell Lewis, Yunthony Aaron McCree and Raven McCree; great-grandchildren, Tabitha Perry, Aaron Perry, Sean Richardson, Jr., SaRya Grinstead, Micah Green, Aleisha Saunders, Laurny Saunders, Amaril Grinstead, Grayson Saunders, Keith Brown Jr. and Makai Grinstead; and many nieces and nephews. Barbara also enjoyed a very close relationship with her niece, Annette Challenger, of Chicago, Ill.

Barbara never met a stranger and had a natural ability to make all who came near her feel welcomed, especially with her enduring sense of humor. She embraced technology, and strongly supported the COVID vaccine. When asked if she wanted to have the COVID vaccine, her response was, "Why wouldn't I?" Barbara loved singing, conversation, sharing her family history and the company of others; for that, she will truly be missed.

Arrangements entrusted to Porter-Qualls-Freeman Funeral Home.

RE: Kingwood Solar Project Application for a Certificate of Environmental Compatibility and Public Need – Notice of Proposed Major Utility Facility

Dear «SALUTATION»,

We are contacting you to provide you with additional information about the upcoming Kingwood Solar Project (the “Project”) public and adjudicatory hearings. The public hearing, along with the adjudicatory hearing, are a standard part of the Ohio Power Siting Board process for solar projects above 50 megawatts. This letter is the second public notice as required by Rule 4906-3-09(A)(2) of the Ohio Administrative Code. The initial notice of this application was by letter dated September 9, 2021 and September 14, 2021 and was published in the Xenia Gazette, Fairborn Daily Herald, and Yellow Springs News on September 9, 2021.

About the Project

Kingwood Solar I LLC (“Kingwood Solar”), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Project, an up to 175 megawatt solar-powered electric generation facility to be located in Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar's Application to the Ohio Power Siting Board

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board.

Notification of Public Hearings

The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance. The public will be given an opportunity to comment on the proposed Project.

Should you have any additional questions about this meeting, or if you wish to speak to a member of our staff, please contact us at info@kingwoodsolar.com or at 937-907-0970.

Sincerely,

A handwritten signature in black ink, appearing to read 'DStickney', with a stylized, cursive flourish at the end.

Dylan Stickney
Development Manager

Re: Kingwood Solar Project Application for a Certificate of Environmental
Compatibility and Public Need – Notice of Proposed Major Utility Facility

Dear «SALUTATION»:

Pursuant to Ohio Adm.Code 4906-3-09, Kingwood Solar I LLC is providing you
with a second notice regarding the proposed facility. This notice will be printed in the Xenia
Daily Gazette, Fairborn Daily Herald, and Yellow Springs News on October 28, 2021.

Please do not hesitate to call me at 614-464-5462 with any questions.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Mike Settineri", written over a light blue rectangular background.

Michael J. Settineri

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar I LLC (“Kingwood Solar”), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the “Project”), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. The initial notice of this application was by letter dated September 9, 2021 and September 14, 2021 and

was published in the Xenia Gazette, Fairborn Daily Herald, and Yellow Springs News on September 9, 2021.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.
