Subject: AEP Rate Increase affecting Schools (again)

Good morning,

I see AEP is playing games again with their electricity rates. Reducing the kWh charges and increasing the demand rate in the Basic Transmission Rider. How can the PUCO announce a reduction in the price to compare for the energy/kWh costs? It is a distortion of the facts as presented to the Public. In December 2021, AEP just received a huge increase to their Base Rate, all in the Demand/kW part of the cost, was that not enough? Have you looked at their stock prices? These rate increases and the way the information is feed to the public is disingenuous. It's time that the PUCO starts working for the rate payer citizens of Ohio.

Subject: RE: PUBLIC UTILITIES COMMISSION OF OHIO - Case #: 00732507 [ref:_00Dt0GzXt._5008y1nmHz:ref]

CASE ID: 00732507

Dear Mr. VanGundy:

Thank you for contacting the Public Utilities Commission of Ohio (PUCO) regarding the Ohio Power Company (AEP) and its application to increase its rates.

The PUCO is responsible for ensuring that utilities across the state provide safe and reliable services. Great care is taken to review the utilities' financial records to make certain that the rates set do not result in the over-collection of revenue.

On June 8, 2020, AEP filed an application to increase its annual revenue in the amount of approximately \$42 million, or 3.5% of their average annual total revenue. The PUCO staff has investigated the facts and issues in the company's application and prepared a staff report, as well as held a public hearing on February 8, 2021. The PUCO will fully examine all issues and evidence presented before it comes to a decision in this case.

The company's application and all related documents are available at www.PUCO.ohio.gov, case no. 20-0585-EL-AIR. Click on the link to "Docketing information System" (DIS). You can then enter the case number in the "Case Lookup" search field. Additionally, I have filed

your comments in the case docket; as a result, your comments will form a permanent part of the record.

Should you have any additional utility-related questions, please do not hesitate to contact the PUCO Call Center at (800) 686-PUCO (7826) or visit our website at www.PUCO.ohio.gov.

Sincerely,

Jermeki Knox |
