Hello,

I am upset with the Scioto Solar Project that is being placed near a farm that my family truly enjoys the privacy of and country feel multiple times a year. It's our family tradition to go to the farm and fish, pick berries and pick pumpkins. Putting in a solar plant across from there would be devastating to our little country getaway. Please think about this and the affects it has on the landowners and visitors of the area.

Best,

Sarah Robinson
