Re: Case 21-1231-EL-BGN: Fountain Point Solar

Good morning,

I have received numerous phone calls and emails from citizens I represent who do not wish to have industrial solar fields in their rural-residential county. Conversely, I have received almost no emails for these types of projects.

I feel strongly that Logan County is not an appropriate place for solar panels, not to mention the real concern of using up some of the most fertile farmland in the state of Ohio.

My understanding, from research, is that most of the panels are manufactured in China. I have nothing against the Chinese people, but I do not want to fund communism and sadly, the government in China controls the means of production and profit, so it goes directly into the Chinese Communist Party.

For these and several other reasons, I wish to express my strong opposition to the siting of these industrial solar projects in rural-residential Logan County.

Respectfully,

A handwritten signature in black ink, appearing to read "Nino Vitale", is placed below the word "Respectfully,".

Nino Vitale

State Representative

Ohio's 85th House District
