Good evening, I am honored to speak today on behalf of the International Brotherhood of Electrical Workers. My name is Bill Davis, I am the Business Manager of Local 246 in Steubenville, Ohio. I have been a member of Local 246 for 31 years. In 1995, I completed my Apprenticeship training and became a Journeyman Wireman. I'm here tonight to speak in support of the proposed Nottingham Solar Farm Power Plant to be constructed in Harrison County. This Solar Plant will bring with it a steady stream of revenue that will benefit essential service in our community. It will provide a source of revenue for our schools, fire departments, and necessary infrastructure projects in the community. The project will employ approximately 400 local jobs, during construction over a 9-month period. Solar projects generate no air or water pollution and no hazardous waste during operation. I believe the jobs created by Nottingham Solar will create pathways to lifelong careers in the electrical industry for future green solar projects to come. I am proud to support Nottingham Solar Farm, the jobs, and the revenue it will bring to the community. Thank you for your time.
