I take this opportunity to express my VERY STRONG objection to the Birch solar 1, case 20-1605-EL-BGN in Allen County Ohio. This project serves to destroy our fields, wildlife, and visual beauty of the fields associated in this case in Allen County.

The long term environmental concerns of pollution from the solar panels is very disturbing.

Additionally the loss of the land will not benefit the residents of Allen County via reduced electrical costs is similar to robbery. The birch project supposedly will provide funding to the local schools, BUT, they made this claim without any factual information To substantiate their claims, sounds BOGUS to me. The fact that Birch conducted themselves from the beginning in a “clandestine” manner speaks of their underhanded manner.

We strongly request that the OPSB Board of Ohio reject this program as it will do nothing positive for Allen County Ohio.

Thank you for your time and attention to this matter.

Kim Daniel
