Description: What on earth is wrong with you if you think you can go ahead and hike up the flat rate fee by almost 3x what it is today. You have to be absolutely ghoulish to think that's okay when we're about to nose dive straight into a recession and not to mention we're still in a pandemic. If I had a choice (AND I DONT BECAUSE YOURE A MONOPOLY) I would refuse service. I'm actually going to do my absolute best to leave the state within the next year because I just can't justify \$45 flat rate fee for what? Hitting a button? So I can turn my oven on? Okay. How can you sleep at night knowing full well there will be people who will

no longer be able to afford this utility? Fiendish! My bill already increased from .13 cents per cfc to .76 how on EARTH are you going to charge more more for a flat rate fee to increase your profits?? For what?? Your second yacht?? I hope you can sleep at night.

Sincerely,

Bradley Berner
