DOCKETING CASE #: 21-0637-GA-AIR

SUBJECT: Columbia Gas of Ohio - Protest Rate Case

Please docket the associated customer comment and/or attached in the case number referenced above under "Public Comments". This information was received by the Consumer Services Division through alternate channels and is being forwarded to be filed formally. This information is not the opinion of Staff and should not be viewed as such.

Description: The rate proposal is beyond acceptable, In fact insanely ridiculous, and we all know it. Their stocks are continuing to increase while "the people" are/ will be suffering the worst with all time high's with food, gasoline, and so on! They are at this time at increased revenues, and will admittedly even higher increased revenue to come. Regardless if this is bushiness for them, this is us, the people, other living people who all are taking a burden, and public utilities/ company's all need to be play a part as well and take blunts of the burden. The pockets of these companies are far deeper than the majority of the citizens it provides services for. This is not a time to be profiteering from we the people, but to help us all make it

out the other side, unless that's their intention is for us not too... Its time to restrict and regulate them too and make them wait. Definitely make them stop thinking in VERY large percentage increases as there is no one that has been able to keep up with current inflation's as well squeeze anymore from employers who are barely able to keep up as well. Time for them to get real, and time for our elected officials, and commissions to do what they should be doing... Looking out for the citizens!

This message and any response to it may constitute a public record and thus may be publicly available to anyone who requests it.
