Enter your question or comment	<p>I am a resident of Pickaway County and urge our leaders to support the Chipmunk Solar Farm. Other counties in Ohio that have existing solar farms are thriving not only with more tax revenue to the county but the fact that the participating owners feel appreciative and can continue to invest their time, talent, and money in their neighborhoods for decades to come. When we empower landowners to do what is necessary to ensure they thrive financially we all benefit. When we want to restrict their capabilities in obtaining predictive revenue, we fail to meet our obligation as Americans to respect property rights. The benefits of the proposed Chipmunk Solar Farm go beyond just for the participating landowners. No. 21-960-EL-BGN</p>
