

May 18, 2022

To Whom It may Concern,

April 28, 2022 I testified at the public meeting in opposition of the proposed South Branch Solar Project in Washington township, Hancock County.

I presented several articles on how prolonged exposure to noise affects human brain health.

Enclosed is a statement from my husband's neurologist stating that noise may very well affect his condition.

The approximately two year construction noise and then the constant noise of the panels will subject him and others to this brain damaging hazard.

Who will be liable for adverse health reactions to the people in this area? Will it be OPSB, Hancock County Commissioners, <sup>South</sup> Solar Branch or unnamed others?

Please oppose this project.

Sincerely,  
Pamela S Young

Date: 5/16/2022

To Whom It May Concern:

Due to patient's medical condition, there is a chance that continuous/prolonged exposure to loud noise may adversely affect his medical condition.

Thank you,

Dr. Jatinder Patti MD
