Subject: 20-1605-EL-BGN opposition

I am writing to you to express my opposition to the solar farm that is planned for Allen and Auglaize counties and in particular Shawnee Township. My concerns are the pollution of the ground water and the eyesore these farms are to the areas they are put in. It is my understanding that the power generated will not be for local use and our school system will have little to no benefit. Property values will decrease but our taxes will increase. Taking farm land does not benefit our community. We need to preserve this acreage for our wildlife and our groundwater to sustain this land into the future. If this project gets approved it will be detrimental to the citizens in our community. Thank you for listening to my opposition.
