Gas Supply, Inc. for Certification as a)	Case No. 02-1683-GA-CRS

**MOTION FOR PROTECTIVE ORDER AND MOTION TO EXTEND PROTECTIVE
ORDER**

Pursuant to Ohio Administrative Code ("OAC") 4901-1-24(D), Interstate Gas Supply, Inc. ("IGS" or "IGS Energy") respectfully moves the Public Utilities Commission of Ohio ("Commission") for an order protecting from disclosure certain confidential, proprietary and trade secret documents filed concurrently with this motion in the above-captioned docket. The documents for which protective treatment is sought are Exhibits C-2 Financial Statements, C-3 Forecasted Financial Statements, C-5 Credit Report and C-9 Financial Arrangement (collectively "Confidential Documents") contained in IGS's 2022 Renewal Certification Application for a Certified Retail Natural Gas Supplier ("Renewal Application"), filed simultaneously with this Motion. The information in the Confidential Documents is competitively sensitive and proprietary business and financial information comprising of trade secrets and granting protective treatment to these documents is not inconsistent with the purposes of Title 49 of the Revised Code. In accordance with OAC 4901-1-24(D), the Confidential Documents have been clearly marked as confidential, and are filed under seal, separate from the remainder of the materials that comprise IGS's Renewal Application.

IGS respectfully moves the Commission for an order extending protective treatment of certain confidential, proprietary and trade secret documents filed in the above-captioned docket related to its 2008, 2010, 2012, 2014, 2016, 2018 and 2020 Renewal Applications. The documents for which an extension of protective treatment is sought are Confidential Documents (described in prior applications as Exhibits C-2, C-3, and C-5) filed with IGS's 2008, 2010, 2012, 2014, 2016, 2018 and 2020 Renewal Applications. The Confidential Documents were most recently granted protective treatment by Entry of the Attorney Examiner on October 6, 2014. The information in the Confidential Documents is competitively sensitive and proprietary business and financial information comprising of trade secrets, and the Commission granting protective treatment to these documents is not inconsistent with the purposes of Title 49 of the Revised Code. In accordance with Rule 4901-1-24(D), OAC, the Confidential Documents have been clearly marked as confidential, and were filed under seal, separate from the remainder of the materials that comprise IGS's 2008, 2010, 2012, 2014, 2016, 2018 and 2020 Renewal Applications.

The grounds for this motion are set forth in the memorandum in support. Notably, the Commission has previously granted protective treatment to similar information in connection with IGS's previous requests to renew its certification and extended protective treatment of such information.¹

MEMORANDUM IN SUPPORT

The Commission's rules allow for protective treatment of certain confidential information filed at the Commission in order to prevent disclosure of such information.

OAC 4901-1-24(D) states in part:

"(D) Upon motion of any party or person with regard to the filing of a document with the commission's docketing division relative to a case before the commission, the commission, the legal director, the deputy legal director, or an attorney examiner may issue any order which is necessary to protect the confidentiality of information contained in the document, to the extent that state or federal law prohibits release of the information, including where the information is deemed by the commission, the legal director, the deputy legal director, or the attorney examiner to constitute a trade secret under Ohio law, and where nondisclosure of the information is not inconsistent with the purposes of Title 49 of the Revised Code. Any order issued under this paragraph shall minimize the amount of information protected from public disclosure."

Ohio law recognizes the need to provide protective treatment to information such as the Confidential Documents. Ohio Revised Code ("R.C") 4929.23(A) specifically permits the Commission to grant protective treatment to confidential information provided by a certificated natural gas supplier. Further, under R.C. 1333.61(D), "Trade secret" means:

[I]nformation, including the whole or any portion or phase of any scientific or technical information, design, process, procedure, formula, pattern, compilation, program, device, method, technique, or improvement, or any

business information or plans, financial information, or listing of names, addresses, or telephone numbers, that satisfies both of the following:

- (1) It derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.
- (2) It is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

The Confidential Documents consist of financial statements, financial arrangements, and forecasted financial statements that are proprietary, confidential and that constitute trade secrets. Public disclosure of this information would jeopardize IGS's business position in negotiations with other parties and its ability to compete. By examining the Confidential Documents, competitors could reasonably estimate IGS's growth rates, market share and margins. Competitors could use the Confidential Documents to make strategic decisions whether to enter or exit the markets in the geographic regions in which IGS operates. Therefore, the Confidential Documents derive independent economic value from not being generally known to, and not being readily ascertainable by proper means by other persons. Public disclosure of the Confidential Documents will cause substantial harm to IGS's business and competitive interests.

Moreover, the Confidential Documents that were granted protective treatment by Commission Entry on October 6, 2014 remain competitively sensitive and proprietary. IGS's business model, including margins, pricing and relationship with creditors has not changed significantly since 2008. In addition, by comparing IGS's financial results from year to year, competitors could determine the areas in which IGS's business is expanding and contrasting. Accordingly, the Confidential Documents derive independent economic

value from not being generally known to, and not being readily ascertainable by proper means by other persons.

The information contained in the Confidential Documents described in this motion is not generally known by the public and is held in confidence in the normal course of business. The Confidential Documents sought to be protected is disclosed to only a few key personnel at IGS. Also, IGS only makes the Confidential Documents available to parties outside of IGS for business purposes and under the protection of a confidentiality agreement.

IGS is a privately-held company, and therefore, would be especially vulnerable if protective treatment were not granted. Indeed, the Commission has previously found the need for protective treatment to be especially "persuasive for the privately held companies."²

Lastly, granting confidential treatment to the information will not impair the purposes of Ohio Revised Code Title 49, because the documents filed under seal will allow the Commission and Staff have full access to the information. IGS is also filing a public version of its 2022 Renewal Application that contains a great deal of public, non-

proprietary information about IGS. And, IGS has previously filed public versions of its 2008, 2010, 2012, 2014, 2016, 2018 and 2020 Renewal Applications that contain a great deal of public, non-proprietary information about IGS.

The reasons set forth above demonstrate that the information contained in the Confidential Documents has actual, substantial independent economic value from not being generally known, and not being ascertainable by proper means by persons who would derive economic value from disclosure. Public disclosure of the Confidential Documents will cause substantial harm to IGS's business and competitive interests. Thus, IGS respectfully urges the Commission to grant an order to protect the confidentiality of the Confidential Documents filed herein under seal, and to extend the protective treatment of the Confidential Documents filed as part of IGS's 2008, 2010, 2012, 2014, 2016, 2018 and 2020 Renewal Applications.
