I oppose the building of the Burch solar project. I have worked for a local excavation contractor and see first hand the water issues with these solar fields. I have also seen all the trash and waste. I disagree with the federal tax dollars used to subsidize these projects. If they were such a good idea we would not have federal subsidizes for it. Solar is very inefficient. People don't want to just use power when the sun shines. I want nuclear power which is the only carbon neutral power if that's a big deal.

Thank you Logan Kellerman

Logan township

Auglaize county
