To this day I have yet to hear substantial benefits to the Shawnee community which will bear the brunt of this project. Loss of country views and wildlife sightings, devalued property, potential harmful chemicals in the water system and loss of farming acreage are my main areas of concern. I am not against renewable or clean energy IF done in a responsible manner and in the appropriate place...not in a densely populated area like Shawnee Township in Allen County. I am totally AGAINST this project.</p>
