---

Dear Matthew,

It has come to our attention that Birch solar is again trying to usurp the wishes of the residents of Auglaize County and the members of Auglaize Townships United. We have spoken out in opposition to solar panels and wind turbines being constructed in all areas of our county, especially the unincorporated. Our members number over a thousand and we know there are better places and locals in which to place these land abuse monstrosities. We have lived on the same land for fifty years, and the reason was for the beauty of the country with its peace and serenity, wildlife, green pastures and farm fields. My wife and I wish to pass this God created beauty on to our children and grandchildren and indeed all who come after we are no longer here to protect and defend our part of heaven. I have served our country willingly and helped defend our nation when called upon and now I feel that calling is again presenting itself. Matthew, listen to the thousands of voices who oppose the raping of our heritage by those who promise the world but destroy the soul of the land. One has only to look at the carnage produced by these fields of Chinese panels and Towering Avian killers to realize that they are not synonymous with nature's goal. Please place Leslie and Shannon down as opposed along with thousands of others in Auglaize County. Thank You.

Leslie and Shannon Kubinski
