Subject: Case number 20-1605-EL-BGN

I live in Shawnee township. I have lived here over 20 years. I strongly oppose this Birch Solar facility. It will be less than a mile from my home. It provides zero benefit for our community. We stand to receive all the negative side effects with no positives. I'm concerned about the wildlife. We feed our family with local venison. I'm concerned about storm water run off, and toxins leeching into our well. I do not support this frivolous waste of our tax dollars. I also oppose the deceptive nature in which Birch Solar has approached our community. They have been caught in multiple lies. Why should we trust them and be forced to see this hideous eyesore the next 35 years? This unreliable electricity source has already been sold out of state. Why should our community see such a massive infrastructure to benefit someone else?

This project does not serve the best interest or need of our township.
