To the attention of the Siting Board,

I am writing you in reference to a petition that I am assuming was sent to you by The Coalition for Reasonable Energy.

This letter serves as a rebuttal to the said petition. First, of the number of people on the petition there were only 60 some signatures from Shawnee Township residence with a population of over 12,000. Second, the petition reference the location of the solar farm as being in an out of the way location. It is right next to subdivisions and bisected by a State Highway and County roads, which carry a large number of our constituents. Third, it is of little benefit directly as the energy is sent elsewhere. Fourth, it consumes a great portion of the most tillable land in the Township. And fifth, as you have already gotten our letter of opposition, we as trustees are aware of our constituents concerns and by in large the majority are still opposed to this project and to the methods by this committee and others trying to push the project through.

Sincerely,

The Shawnee Township Board of Trustees

Clark Spieles
Russ Holly
Ted Ciminillo
