Enter your question or comment	<p>I am adamantly opposed to to the Birch Solar project proposed for Allen/Auglaize Counties, case # 20-1605-EL-BGN. I live directly across from a section of the proposed project. My family and I moved to the Shawnee area 22 years ago. We chose this location due to the proximity to city amenities while still living in the country. We have not invested our money and time into improving our property to only have it be depreciated by a solar farm. I believe you should collect the addresses of all the people that are "for" the project and build it near their properties. I am sure they would think twice about their decision. I am not against clean energy, but I believe there are better location options available that aren't so populated.</p>
