Enter your question or comment	<p>As an impacted landowner on one side I am writing again to show my opposition to Birch Solar. The company has failed to show any significant benefit to the local area and local opinion remains set against this project. Wildlife impacts(I regularly see Bald Eagles in the proposed area north of my property), environmental impacts(groundwater contamination and well head damage), and economic concerns(property values) continue to outweigh the "benefits" that LightSource would have us believe. On top of these concerns LightSource BP has shown to be very uninvolved with the locals who will be impacted. Personally I have never received a call or email back, and still have unanswered questions about issues they stated that they would have one-on-one conversations with landowners about. Despite reaching out to BP my questions and concerns remain unanswered. I urge the board to be the voice of the locals and reflect our wishes in your final decision.</p>
