Subject: Opposition to birch solar

My wife and both of my adult children are opposed to the birch solar plan. We do not want any solar field or farm in our local farming community, or any other farming community. Solar panels need to be put on roof tops, and highway medians. Put them in the desert where there is more sun than here in Ohio. If it wasn't for green energy tax credits, the push for solar in farming communities wouldn't exist.

With all four of us being registered voters in our community, and members of this household, and being against this birch solar project, you can count 4 votes against it.

Sincerely,
John, Angela, Luke, Noah Schneider
