Subject: 20-1605-EL-BGN

I am writing as a Shawnee township resident to express my opposition to the birch solar project. I would like the OPSB to consider the amount of support for the project from non residents. The vast majority of my neighbors and fellow residents I've spoke with (who live IN the immediate area of the project) including our locally elected township and county government officials oppose. My wife and I are concerned for our home as Lightsource BP have been unable to give us an answer of what this will do to our homes value. This project is too large, and too close to too many homes. We are also concerned that the project will shed additional water runoff to our already overwhelmed system, we have recently spent over thirty thousand dollars to repair and prevent water damage. I believe it would be irresponsible to forego the voices of our residents, and our local elected officials to approve this project. Thank you for your consideration.
