

Fountain Point Solar #21-1231-EL-BGN

August 19, 2022

Ohio Power Siting Board members:

I strongly oppose the Invenergy Fountain Point Solar project in Logan County--case # 21-1231-EL-BGN.

As an adjoining landowner to leased land in Bokescreek Township, Invenergy has failed to officially notify me of their intent to place solar panels on the leased acres that abut mine.

In January and February, two individual Invenergy representatives were questioned on this oversight. After expressing surprise and regret, their responses to failure to notify were: "Sometimes the mail is not reliable" and "It can be difficult to locate addresses in the records." Each employee hand wrote contact information for notification.

Invenergy has yet to contact me on their plans that will directly affect my property. Invenergy has knowingly disregarded my interest, convenience and necessity in correcting their failure to follow through.

Deny this project. It does not meet public interest, convenience and necessity. Invenergy's failure to follow through is a warning to all of their lack of credibility and transparency.

Lack of credibility and public transparency should be a major concern to any who may vote to approve this project and an important reason to deny it.

I strongly oppose the Fountain Point Solar project and call for its denial.

Regards,

Linda Hughes
