**BEFORE
THE OHIO POWER SITING BOARD**

In the Matter of the Application of Grover Hill Wind,)
LLC for a Certificate of Environmental Compatibility)
and Public Need to Construct a Wind-Powered) Case No. 20-417-EL-BGN
Electric Generation Facility in Paulding County, Ohio.)

**GROVER HILL WIND, LLC 'S
RESPONSE TO THE SEVENTEENTH DATA REQUEST
FROM THE STAFF OF THE OHIO POWER SITING BOARD**

On May 3, 2021, as supplemented on June 7, 202, December 21, 2021, and January 24, 2022, May 26, 2022, July 13, 2022, and July 21, 2022, Grover Hill Wind, LLC (“Applicant”) filed an application (“Application”) with the Ohio Power Siting Board (“OPSB”) proposing to construct a wind-powered electric generation facility in Paulding County, Ohio (“Project”).

On August 26, 2022, the Staff of the OPSB (“OPSB Staff”) provided the Applicant with OPSB Staff’s Seventeenth Data Request. Now comes the Applicant providing the following Response to the Seventeenth Data Request from the OPSB Staff.

- 1. It is Staff’s understanding that the Applicant is considering backfilling and remediation of the prior wind turbine excavation sites (T-1, T-26/T-2, T-31, T-34, T-40E, T-42, and Northwest Ohio Wind’s T55) during the civil construction phase. Also, Grover Hill Wind, LLC has considered completing that work for all seven sites, by the earlier of (a) the project’s commercial operation date, (b) 12 months of commencement of construction activities, or (c) by the end of the first quarter 2025. Please explain the practical implementation of when these seven wind turbine excavation sites would be restored and the anticipated timing of when that work would be performed and completed.**

Response: The Applicant will backfilled the seven production tax credit (“PTC”) excavations during the construction of the wind farm. This will minimize additional impacts to the local community by utilizing equipment that is already onsite for the

civil work during construction. The Applicant commits to backfill the PTC excavations and to complete remediation of these sites within twelve months following the beginning of construction of the wind farm but not later than March 31, 2025.

Respectfully submitted,

/s/ Christine M.T. Pirik
