RE: Construction Notice
Canton Central Station Expansion and Line Adjustment Project
Case No. 22-0563-EL-BNR

Dear Neighbor,

You are receiving this letter because public records show you own property or live in the area where AEP Ohio representatives plan to upgrade the local power grid.

AEP Ohio representatives plan to expand the Canton Central Substation off Orchard Valley Drive in Canton and build an interior and perimeter fence. The project also involves making small adjustments to four surrounding transmission lines to accommodate the fence expansion. The project allows company representatives to upgrade and add equipment to ensure the substation complies with current company and safety standards.

We filed a Construction Notice for this project with the Ohio Power Siting Board (OPSB) as the Canton Central Station Expansion and Line Adjustment Project, Case No. 22-0563-EL-BNR.

If approved, construction begins this fall and concludes next fall.

Please see Page 3 of this document for key regulatory information associated with this project.

You may provide comments by:

- Calling Meghan Blankenship at (304) 784-0556
- Sending an email to mdblankenship@aep.com
- Sending your comments directly to the OPSB at 180 East Broad Street, Columbus, Ohio, 43215-3793. You may also contact the OPSB at (866) 270-6772 or contactopsb@puc.state.oh.us. (Note: You can file petitions to intervene in the OPSB process to the siting board up to 10 days following the public notice announcing the project)

The following map shows the project area. Please use this map only as a general guide due to its reduced scale and limited detail.

Feel free to contact me and I would be happy to answer any questions about this project.
