Power Company for a Certificate of Environmental  
Compatibility and Public Need for the Brie 138 kV Station Project in Case  
No. 22-0799-EL-BLN**

Dear Ms Troupe:

Ohio Power Company (the “Company”) files this pre-application notification letter for the above-reference Project pursuant to Rule 4906-6-03(A) of the Ohio Administrative Code.

The Company is proposing to construct the Brie 138 kV Station Project (the “Project”) in the City of New Albany, Licking County, Ohio. The Project consists of constructing a new approximately 5-acre, 138 kV electric transmission substation in the southeast corner of a customer’s development site located east of Beech Road, between Worthington Road and Morse Road. The Project is located on property owned by a customer and will support the customer’s new development in the area. The station will receive a service from a new proposed 138 kV double circuit transmission line from Anguin Station to the proposed Brie Station (Anguin-Brie 138 kV Transmission Line; will be field separately with OPSB).

The Company anticipated that construction of the Project will begin in December 2022. The anticipated in-service date for the Project is May 2024.

Respectfully submitted,

/s/ Hector Garcia
