Another solar farm in madison county? You have got to be kidding me! How may of these leeches are you going to let into our area? It is depressing what **YOU** are doing to our community. You are ruining the farmland in our region. And as the faming opportunities disappear, so do all the small businesses that support them, making it even more difficult for those still farming. Tell these grifters to go install their solar nightmare somewhere else that is not on prime farmland! If you had any honor you would be protecting the land owners from this!

My family has lived on this land since the 1790's and it is a shame what you have turned their legacy into.

Sincerely,

Pete Call
