SECTION B - APPLICANT MANAGERIAL CAPABILITY AND EXPERIENCE

Exhibit B-1 "Jurisdictions of Operation,"

Company: Dovetail Energy Services LLC

Jurisdiction: Dovetail Energy Services LLC is a licensed natural gas broker in Ohio, Virginia and Massachusetts. Energy consulting services are offered in Ohio and other states.

Exhibit B-2 "Experience & Plans,"

Company: Dovetail Energy Services LLC

Dovetail Energy Services LLC was started by David M. Burig after working in the energy industry since 1998. I spent the 10 years prior to that selling factory automation equipment to manufacturers, making their manufacturing processes more accurate and efficient.

For 6 years, from 1998 to 2004 I was the Director of Customer Choice programs for Interstate Gas Supply, now IGS Energy, overseeing the growth of the residential and small commercial Customer Choice markets from pilot programs to more than 600,000 customers. From 2008 through January 2014 I was Vice President of Sales at Stand Energy Corporation, with oversight of a sales force that sold energy commodity to commercial and industrial customers.

Since starting Dovetail Energy Services in March of 2014, I have been an energy consultant; helping clients reduce energy costs primarily through conservation, tariff optimization, demand shifting and reduction, and power factor correction, as well as brokering natural gas and power to industrial clients..

Plans for the future are to increase the brokering of natural gas and electric supply to existing clients and further broaden Dovetail Energy Services' customer base.

16

Exhibit B-3 "Summary of Experience,"

Company: Dovetail Energy Services LLC

Since starting Dovetail Energy Services in March of 2014, I have been working with a select group of manufacturers. Once engaged, I become their single point of accountability for energy cost and usage. This includes not just advising them on the procurement of their energy, but monitoring consumption, in some cases on a daily basis, and tying it to their production to ascertain an energy cost and usage per unit of goods produced. My clients typically have multiple locations, and by analyzing the efficiency per unit produced across facilities, I am able to help pinpoint less efficient operations, estimate costs to upgrade equipment or processes, obtain utility efficiency incentives if applicable, and verify cost savings once the upgrade has been implemented. My services are heavily data-driven, and I am able to show my clients that the cost of employing my services is far exceeded by the benefit.

Since becoming a Certified Ohio Natural Gas and Power Broker, Dovetail Energy Services has grown its business through providing these services to its customers.

2021 and 2022 have been growth years for Dovetail Energy Services, with business picking back up following the pandemic, and with the addition of new customers outside of Ohio which were obtained through customer referrals.
