Re: **Pre-Application Notification Letter
In the matter of the Construction Notice Application of AES Ohio for a Certificate of
Environmental Compatibility and Public Need for the
Sidney Substation Expansion Project
Ohio Power Siting Board Case No. 22-0835-EL-BNR**

Dear Chairman French,

The Dayton Power and Light Company, doing business as “AES Ohio”, files this Pre-Application Notification Letter for the above-referenced Project pursuant to Rule 4906-6-03(A) of the Ohio Administrative Code (“OAC”).

AES Ohio is proposing the Sidney Substation Expansion Project (the “Project”), located in the City of Sidney, Shelby County, Ohio. This Project will expand the existing 138 kilovolt (“kV”) bus arrangement to a full breaker ring configuration and install two new 138kV circuit breakers. Additionally, the new 13854 Sidney - Franklin 138kV transmission line will terminate into the new 138kV ring bus. This Project is a part of the wider area improvements that will provide operational flexibility and capacity to the North portion of our service territory.

In accordance with OAC Rule 4906-06-05, this Project falls within the Ohio Power Siting Board (“OPSB”) requirements for a Construction Notice (“CN”) application.

AES Ohio anticipates that construction of the Project will begin September 15, 2023, pending approval of this CN. The anticipated in-service date for the Project is June 3, 2024.

Respectfully submitted,

ss:/ *Randall V. Griffin*
