**CASE NO. 21-913-EL-CSS** 

v.

OHIO EDISON COMPANY,

RESPONDENT.

## **ENTRY**

Entered in the Journal on November 7, 2022

- {¶ 1} Pursuant to R.C. 4905.26, the Commission has authority to consider written complaints filed against a public utility by any person or corporation regarding any rate, service, regulation, or practice relating to any service furnished by the public utility that is in any respect unjust, unreasonable, insufficient, or unjustly discriminatory.
- {¶ 2} Ohio Edison Company (Respondent or Company) is a public utility as defined in R.C. 4905.02. Accordingly, Respondent is subject to the Commission's jurisdiction.
- {¶ 3} On September 1, 2021, Edward Galewood (Complainant) initiated a complaint against Respondent. Complainant alleges that on August 11, 2021, Respondent's equipment "exploded" and resulted in downed transmission lines that caused damage to Complainant's property. Complainant states that he submitted a claim to Respondent for the damages but that the claim was denied because the Company determined that the power outage was due to lightning.
- {¶ 4} Respondent filed its answer on September 21, 2021. In its answer, Respondent admits that it denied Complainant's claim for damages, but otherwise Respondent generally denies or states it is without sufficient knowledge to form a belief as to the other allegations contained in the complaint. The answer also sets forth several affirmative defenses.
