Enter your question or comment	I have lived in Madison county my whole life. I am the daughter of a multi generational farmer and the wife of a third generation farmer. We have raised our two daughters on our family farm. My husband has made a living as a farmer and an owner of a seed dealership. The impact that solar farms will have on Ag businesses in Madison co will be massive. This is how we make a living, providing seed to the local farmers. With thousands of acres coming out of production this will have a negative affect on the community. I strongly oppose the oak run solar project and do not want it to move forward. Thank you
