Enter your question or comment	<p>My household is concerned about many things with the Oak Run Solar Power Project. Concerns include: Irreversible damage done to the best top soil on Madison County. After the Project, yield produced will be 30% less than current. There are many issues with this including crop production amount and farmer profit. The chemicals used to clean the panels will be running off entering our natural drainage system, into creeks and wells. Our HOUSEHOLDS will be ingesting this runoff. There are no water treatment plants or filtering systems for our water in this area. This project needs to STOP NOW!!!!!! THERE IS ABSOLUTELY NO BENEFIT FOR THE PRECIOUS PEOPLE YOU ARE AFFECTING.</p>
