Subject: NO more solar farms!!

Solar farms are a complete eyesore to our gorgeous countryside. Plus they are taking away precious farm land that feeds us and our animals! I would much rather have beans and corn for our own usage than having some city way out West get it's energy from OUR farms! All of this makes zero sense! Union county is becoming one big solar panel and it makes me sick. These sites are muddy, messy and there has been removal of good trees and of course native grasses. Not to mention all of the animal routes that have been disrupted. There are numerous cons to solar farms and only a few pros...it's not worth it to lose valuable land.
